## BULGARIA QUILTS TURKISH OFFER EXPECTED

### Armistice With Bulgaria in Force and Turkish Move Now Seems Imminent

#### BULGARIA WILL DEMOBILIZE HER ARMED FORCES AND PUT CONTROL OF RAILWAYS IN ALLIES' HANDS

Hostilities Ended at Noon To-day; Bonar Law Points Out Control of Bulgarian Railways Gives Allied Powers Control of Bulgaria

Paris, Sept. 30.—An armistice has been concluded between the Allies and Bulgaria on the Allies' own terms. This announcement was made officially here today.

Paris, Sept. 30.—The armistice between Bulgaria and the Allies was signed last night, a Salonica dispatch states. General Franchet d'Esperey, the Allied Commander-in-Chief in Macedonia, signed for the Allies and the Bulgarian delegates for their Government.

Instructions have been given by the Allied Governments to General d'Esperey to proceed immediately to the execution of the conditions of the armistice.

London, Sept. 30.—Speaking at the Guild Hall to-day, Rt. Hon. Andrew Bonar Law, Chancellor of the Exchequer, said a Bulgarian convention had been signed by which hostilities ended today at noon. Bulgaria, by the terms fixed, gives up completely the control of her railways, the convention states.

Control of the Bulgarian railways, the Chancellor pointed out, gives control of Bulgaria.

First Break.  
London, Sept. 30.—Bulgaria has signed an armistice with the Allies and the first break in the alliance of the Central Powers has come.

The terms of the armistice were accepted by Bulgaria and hostilities between that nation and the Allied Powers ceased at noon to-day. The Allied terms, as reported from semi-official sources, include the demobilization of the Bulgarian army.

Enemy's Dream Gone.  
London, Sept. 30.—"The convention signed with Bulgaria means," Chancellor Bonar Law said in a speech at the Guildhall to-day, "that communication between Germany and the East in that direction has been cut off and that the German dream of a German Middle European Eastern Empire has gone forever."

Paris Learned.  
Paris, Sept. 30.—The announcement that an armistice had been signed with Bulgaria after that country had accepted all the conditions of the Allies aroused the keenest interest in Paris and the statement was widely commented upon.

The announcement followed the return of Premier Clemenceau from the front, where he had inspected the troops and had an opportunity of talking with General Petain and Verhaeghe on the military situation.

The actual suspension of hostilities immediately followed the signing of the armistice, but it is noted that this suspension applies only to Allied operations against Bulgaria and that it in no way affects other operations in Macedonia, where the Allies are still continuing against Austria-Hungary and Turkey and the German contingents sent to that locality.

Unconditional.  
London, Sept. 30.—News that Bulgaria had yielded to the Allies' terms was received here to-day. Reuters states that Bulgaria's surrender was unconditional.

The Serbian legation here received an announcement of the Bulgarian surrender. No details were made public up to 2 o'clock this afternoon. Certain conditions, the Central News says, were submitted by the Bulgarian Government. These, however, were rejected in no way with the demands of the Allied commander, which the Bulgarians accepted unconditionally.

A Surprise.  
The prompt acceptance by the Bulgarian delegation of the terms was a surprise to the newspapers here and to the public. The expectation had been that the Bulgarian envoys on general principles would advocate terms of their own and endeavor to engage in debate for a time.

The brief and authoritative statements issued here indicate that the Allies had virtually issued an ultimatum to Bulgaria. Apparently they were firm in their demands. The chief point now is Germany's action.

Some reports from Germany state that she will try to keep Bulgaria in line by force, but her ability to do so is another question.

Charevo Taken.  
London, Sept. 30.—The capture of Charevo, east of Velea and six miles from the Bulgarian border by the Serbian troops and the cutting off of the retreat of the Bulgarian troops was announced in a Serbian official report dated Sunday and issued here to-day. More than 100 prisoners and twenty guns were captured at Charevo. In the heavy fighting around St.

HIS COUNTRY OUT OF THE WAR; KING OF THE BULGARIANS

Resignation of Both Hertling and Hintze Reported in Berlin

Amsterdam, Sept. 30.—Chancellor von Hertling and Foreign Secretary von Hintze have tendered their resignations to Kaiser Wilhelm, The Vossische Zeitung, of Berlin, says it understands.

The Kaiser has accepted the resignations of Count von Hertling and Admiral von Hintze, according to The Zeitung Am Mittag, of Berlin. No official announcement has been made.

#### FORCES UNDER FOCH'S DIRECTION CONTINUE TO SWEEP ENEMY BACK

London, Sept. 30.—1.45 p. m.—Field-Marshal Haig's forces to-day smashed the Hindenburg line on a front of eight miles to a maximum depth of two miles. The British attack was made just north of St. Quentin.

The British and French armies attacking in Flanders have advanced to an average depth of five miles and a maximum depth of eight miles.

London, Sept. 30.—1.45 p. m.—Pushing the Germans hard on the front north of the Aisne, French troops to-day reached the Oise-Aisne Canal, reports from the battlefield show. They are progressing along the Chemin-des-Dames toward the east and the enemy is retreating behind the Ailette.

London, Sept. 30.—1.45 p. m.—The fall of Cambrai is imminent, but that place already is virtually useless to the enemy. The same statement applies to St. Quentin. With the fall of these two towns the enemy will be compelled to effect a complete readjustment of his entire line from the Scarpe to the Oise.

Gouraud's Men Advance.  
Paris, Sept. 30.—General Gouraud's army attacked this morning on the northern slopes of Bellevue Heights, Mont Cuvelot and Bouconville.

The Aisne brook, which flows north-east towards Challerange, has been crossed and the heights dominating the village of Marne, on the west side of the brook, have been taken.

Roulers Railroad.  
London, Sept. 30.—The capture of the Roulers railroad, northeast of Ypres, is imminent. This would prove a serious loss to the Germans, as it is an important communication centre. The Germans facing the British and Belgian attacks are not fighting so well as the Allies expected.

Report From Haig.  
London, Sept. 30.—British, Australian and American forces pushed forward last night on the front between Bellicourt and Gonnelleu, in the face of the severest opposition. Field-Marshal Haig reported to-day.

Four thousand prisoners were taken by the British yesterday to the north of St. Quentin and forty guns were captured there.

British forces entered the northern suburbs of Cambrai.

On the front northwest of La Catelet, German counter-attacks pressed the British back to the outskirts of Villers-Guislain, while to the south-west of La Catelet similar pressure sent Field-Marshal Haig's troops back to the edge of the village of Bony.

(Concluded on page 20.)

#### WILSON OPENS NEW ARMY DRAWING IN THE UNITED STATES

Washington, Sept. 30.—President Wilson personally to-day opened the ceremony of drawing numbers for the 13,000,000 men registered in the new draft. He drew the first capsule, which contained the number 322.

#### FISHERY OVERSEER.

Ottawa, Sept. 30.—Edward L. Peers, of Vancouver, has been appointed fishery overseer for the Province of British Columbia during the absence of Fishery Overseer A. F. Lloyd.

#### LONDON OPINION IS THAT TURKEY IS ABOUT TO FOLLOW BULGARIA'S LEAD AND ASK ALLIES FOR PEACE

British Have Driven Three Miles Through the Hindenburg Line

London, Sept. 30.—5 p. m.—British forces have cut the Hindenburg line on a front of eight miles and have penetrated through it to a depth of three miles in flanking operations about St. Quentin.

#### 10,000 More Captives in Hands of Allies in Palestine Field

London, Sept. 30.—(Reuters.)—Chancellor Bonar Law announced to-day that 10,000 additional prisoners had been captured in Palestine.

#### Allies in Belgium Capture About 400 Guns From Germans

With the British Forces in France and Belgium, Sept. 30.—The Belgian troops in their drive north and east of Ypres have captured 300 German guns. British troops in the same area yesterday took ninety-seven guns.

#### King of Bulgaria Thinks He Would Be Safer in Vienna Now

Paris, Sept. 30.—King Ferdinand of Bulgaria is expected to reach Vienna soon, according to a Geneva dispatch. When the two daughters of King Ferdinand reached Vienna Saturday they stated that they expected their father to follow shortly.

#### Koi Hara Appointed Head of New Cabinet in Japanese Empire

Washington, Sept. 30.—Koi Hara, one of the leaders of the great Seiyu party, has been appointed Premier of the new Japanese Cabinet, succeeding the Terauchi administration.

#### NURSES TO BOSTON.

Halifax, Sept. 30.—The Victoria General Hospital, Halifax, is sending nine nurses to Boston. The Halifax Medical Society also has offered medical assistance to Boston, and a telegram was sent asking that the need be made known and that help would be sent at once.

#### FOCH FIGHTS FIVE GREAT BATTLES SIMULTANEOUSLY, SETTING UP A NEW RECORD

Paris, Sept. 30.—Marshal Foch is fighting five battles simultaneously and successfully—a feat unparalleled in the history of war. Each battle is so timed and placed that each army supports another forming an indispensable part of the whole effort.

General Grant's idea of a continuous concurrent attack by multiplicity of forces on many fronts is being realized by the Allied Generalissimo. There are five battles to-day, and there may be six to-morrow, all inter-related and working as smoothly as the cylinders of a well-adjusted automobile engine.

All are directed to the same end—to wear down the enemy's strength. Marshal Foch alone knows when the Allies will strike the decisive blow.

The enemy still is fighting well. He still is offering stubborn resistance in the Argonne, but how long he can keep that up is a question. Expert commentators agree that the

(Concluded on page 4.)

#### Bonar Law Gives Hint; Motion Introduced in Austrian House Belligerent and Neutral Statesmen Be Invited to Hold Peace Discussion

London, Sept. 30.—A strong belief exists here this afternoon that a peace offer from Turkey is imminent.

In the course of a speech today at the Guild Hall, Rt. Hon. Andrew Bonar Law, Chancellor of the Exchequer, said:

"The magnificent success of our armies in Palestine has resulted in the extinction of the greater part of the Turkish army, but something more is going to follow."

Amsterdam, Sept. 30.—A proposition that the Presidents and Vice-Presidents of the Parliaments of the belligerent and neutral states shall be invited to meet for an unbinding discussion of the basis of peace has been introduced in the lower House of the Austrian Parliament.

The motion, says a Vienna message, was introduced by Neumann, a Liberal Deputy. It would empower the President of the Chamber of Deputies to convey the invitation to the Parliaments of the belligerent and neutral states. The meeting would be held at a place agreed upon.

#### BULGARS WHO SPOKE AGAINST WAR FREED EXHIBITION OPEN

Ferdinand Pardons Those Who Worked Against Bulgarian-Teuton Alliance

Amsterdam, Sept. 30.—King Ferdinand of Bulgaria, at the suggestion of the Cabinet, has issued a ukase pardoning M. Stambouliwsky, leader of the Bulgarian Agrarian Party, and former Minister Ghenadiev, leader of the Stamboulist Party, says a dispatch from Sofia. All their political friends who were sent to prison with their leaders when Bulgaria entered the war also have been pardoned.

In October, 1915, M. Stambouliwsky was sentenced to imprisonment for life after conviction on a charge of anti-militarism.

#### FRENCH HAVE VIEW OF CHALLENGE

Capture of Heights in Aisne-Argonne Region Important Gain

With the French Army in the Champagne, Sept. 30.—The capture of Mont Cuvelot and Bouconville, in the Aisne-Argonne region, by French troops was most important and already has borne fruit. These heights permit the French to overlook the valley of the Aisne and the important railway junction of Challerange. They also can see the mouth of the valley through which flows the river Aisne. Along this river a railway runs eastward from Mouron to Grand Pre. It is the only route possible for troops passing through the Argonne Forest.

South of the Aisne the forest is a mass of impassable swamps. The railway of Challerange is under fire and the Americans on the other side of the forest are steadily approaching Grand Pre.

Yesterday's desperate fighting was not in vain. The enemy's right flank in the Champagne is weakening.

#### INQUEST IN VANCOUVER.

Vancouver, Sept. 30.—Lying on a bed at 1155-Beech Avenue, the dead body of Andrew Daly, an elderly man, was found last evening with a gun by its side. Deceased was an engineer. An inquest will be held.

#### U.S. Consul Who Went to Salonica Ordered to Return to Sofia

Washington, Sept. 30.—Dominick Murphy, the American Consul-general at Sofia, who accompanied the Bulgarian plenipotentiaries to the Allied Headquarters at Salonica, where they arranged the armistice, has been ordered back to his post by the State Department. No criticism of Mr. Murphy's action is made here, but it is made plain that he had no instructions to participate in the negotiations and probably acted only as an observer.

## FRENCH MOVED AHEAD SOUTH OF ST. QUENTIN

Urvillers and Hill 120 Captured by Gen. Debeney's Troops

With the French Army in France, Sept. 29.—Via London, Sept. 30.—(By the Associated Press).—General Debeney's troops attacked shortly before noon today south of St. Quentin and captured Urvillers and Hill 120, the principal point in the German line of resistance running parallel to the Hindenburg Line.

The enemy's troops occupying this position recently had received successive orders from Gen. von Lachauville, in which it was sought to remove from their minds the idea of retreat. "The position at St. Quentin must be held, cost what it may," said one of these orders, which added: "The idea of an elastic retirement must disappear from this division."

The German positions, consisting of old French trenches, block houses and deep wire entanglements, had been considerably widened and strengthened since the enemy retired from the Hindenburg line. The advanced defensive works, as usual, machine gun nests thickly spread among the ravines and hollows.

By Storm. Advancing with clock-like unity with a heavy creeping barrage, General Debeney's men charged the quick-fiers and took the culminating point of the line by storm. Farther south Cerisy was taken, and at the same time the lines were advanced in front of Urvillers across the high road running from La Fere to St. Quentin. The French are solidly installed there within a mile and three-quarters of St. Quentin.

Prisoners admitted that the "new" French positions constitute the gravest menace to the city. They say they had imperative orders not to cede a foot of ground.

Gen. Debeney's men in front of Urvillers are in close contact with the Hindenburg line.

One of the heights captured by the French had been named by the Germans "Hertling Hill," and a special order impressed upon the troops that the greatest importance was attached to the position, which must be held.

## WENT THROUGH MAIN HINDENBURG SYSTEM

British Took Bellenglise and Other Points; Belgians Closed in on Roulers

London, Sept. 30.—Field-Marshal Haig reported last night:

"At dawn this morning the battle successfully developed southward to the neighborhood of St. Quentin. It now extends over a front of nearly thirty miles from that town to the Senne River north of Cambrai.

"On the extreme right the 20th Corps launched an attack at 5.50 o'clock in the morning across the Scheldt Canal from Bellenglise, inclusive, northward. The 46th North Midland Division, provided with machine guns, portable bridging materials and rafts, and under cover of a concentrated artillery and machine gun fire, stormed the main Hindenburg defences, which here run along the eastern bank of the canal.

"Notwithstanding the depth of the water, the breach of the canal and the strength of the enemy's defences, which included the village of Bellenglise and numerous tunnels and concrete works, this division succeeded in capturing the whole German position opposite to it. It pressed to-day with great bravery and determination up the slopes of the hills beyond the canal, taking many prisoners in the course of its advance.

"Bellenglise, Lehaucourt, and Magny-la-Fosse are now in our possession.

"In connection with this brilliant operation other English troops advanced in the bend of the canal south of Bellenglise, covering the southern flank of the division.

"Farther north, at the same hour, American troops under command of General G. W. Read, of the United States army, attacked the Hindenburg Line on a front of 5,000 yards along the Scheldt Canal, pressed forward against these defences and on the right captured Bellenglise and Magny-la-Fosse.

"On the left bank fighting is taking place in the neighborhood of Bony. In the centre of the attack English troops captured Villiers-Guilain. New Zealand troops cleared the Walbeke, breaking in a hostile counter-attack, and pushing on, captured La Vacquerie and the spur leading from Bonaville Masnières.

"Meanwhile the 52nd Division, having secured crossings of the Scheldt Canal, continued its advance. After fighting in the western outskirts of Masnières and Les Rues Vertes, it captured both of these villages and carried the defensive system covering Rumilly, reaching the western outskirts of the latter village.

Up Rising Ground.

"On its left the Second Division crossed the canal about Noyelles and has advanced more than one and a half miles up the rising ground to the east of the canal line.

"The 52nd Naval Division, having forced a passage east of Cambrai, reached the southern outskirts of Cambrai.

"On the left of the attack Canadian troops have passed through the defensive system covering Cambrai on the northwest and have fought their way forward into the outskirts of the town.

"Farther north they captured San-court, where heavy German counter-attacks have been beaten off.

"English troops have cleared the slopes south of the Senne Canal.

"During the last three days more than 22,000 prisoners and 350 guns have been captured by the St. Quentin-Cambrai battlefront."

Aerial Operations.

"Aviation—Our machines were active on every part of the front throughout Friday and kept close watch from the air on the course of the various operations.

"Bombing patrols carried out at a low altitude along the battlefront attacks on enemy troops and transports at the canal crossings and along the roads and heavily engaged the enemy with machine gun fire.

"Our machines working in co-operation with the artillery, bombed a great number of targets and observed the fall of the bombs. Many explosions and fires were observed in hostile battery positions. More than 1,500 photographs were taken during the day.

"In addition to extensive bombing just beyond the lines several enemy aeroplanes and a number of railway junctions were attacked with excellent effect. Thirty tons of bombs were dropped by us in the day and eighteen and a half tons at night.

"Twenty-two German machines and eight balloons were shot down by our airmen. Twenty enemy machines were driven down out of control in the course of the air fighting. Another machine was destroyed by anti-aircraft fire.

"Nineteen of our machines are missing."

Near Roulers.

London, Sept. 30.—The capture of Diamude by Belgian troops was officially announced last night.

The Belgians also took Zeren (Searren), Stadenberg, Paschende, Moorslede and part of Westroosbeke. This was an advance of several miles. After breaking up a violent enemy counter-attack the Belgians captured Terceest height and at the close of the day had advanced to within less than two miles of Roulers.

The prisoners taken since Saturday exceeded 5,500. More than 100 guns and numerous machine guns and bomb throwers and much war material were captured.

French Report.

Paris, Sept. 30.—The War Office announced last night that in a new offensive between St. Quentin and the Fere French troops had made some advance and had taken 500 prisoners. The troops continued to progress on all other sectors.

The report said:

"North of the Aisne the pursuit of the enemy continued during the night. French troops occupied the forest of Pinon and reached the Allietto south and also east of Chavignon. On the sector between Cotel and Chavignon just north of the Aisne, the enemy made strong resistance against the advance of our troops.

"On the Champagne front violent attacks were launched by the Germans yesterday, but they were broken up. The French resumed their progress, especially northeast of Gratreuil, where they captured the heights of Bellevue."

Belgians and British.

London, Sept. 30.—A Belgian Official report received here and made public last night said that the Belgian and British armies had defeated the

## Smartest of the Smart in Coats and Suits

Our Coats and Suits are distinctive. Just as certain people have a personality that attracts, so these garments have an individuality that puts them in a class by themselves. So the woman who wears one of our Suits or Coats is stylishly dressed. She has a garment that will give her several seasons of excellent wear—a garment that will retain its grace of lines and fit.

You'll be surprised to see how reasonable in price these stylish Coats and Suits are, how well they fit and look. Visit our store and try some of them on. We'll be glad to have you do so, even if you are not ready to purchase.

"Quality for Quality" and "Price for Price"—the selling figures here stand for confidence and maintenance of permanent trade. We would rather lose a customer than to lose our self respect through misrepresentation.

Phone 1901

German yesterday in heavy fighting on the Flanders ridge and on the Messines-Wytschaete position.

The Messines-Wytschaete ridge was occupied and the Germans were defeated in efforts to defend the approaches to the River Lys.

British and Belgian troops on Saturday and Sunday took more than 3,000 prisoners. They also captured more than 200 guns, some of a heavy calibre, as well as a very considerable quantity of other war materials.

King Albert's forces at dusk Sunday evening were attacking the German at St. Pieter's-Challenger and on the important centres of the Medeah farm and Ardell and on the crossings of the River Aisne. At night the railroad stations at Longuyon and Audin-le-Romain, and the aviation field at Stenay were bombed heavily.

French Airmen.

Paris, Sept. 30.—Concerning aerial activities on September 27, a statement from the War Office says:

"Our bombing aeroplanes made expeditions during the day and night, incessantly harassing enemy transports and troops and attacking convoys. Twenty-five tons of bombs were dropped behind the battlefront, especially on the railroad from Senne-Py to Challenger and on the important centres of the Medeah farm and Ardell and on the crossings of the River Aisne. At night the railroad stations at Longuyon and Audin-le-Romain, and the aviation field at Stenay were bombed heavily.

"French aeroplanes destroyed nine German machines and set on fire one captive balloon.

"It is confirmed that Lieut. Fonck alone destroyed six enemy machines on September 26."

Thirteen Tons.

London, Sept. 30.—British air forces with the navy, co-operating in the Belgian offensive on Saturday, dropped thirteen tons of bombs and set fire to two trains and several ammunition dumps, according to an Admiralty statement issued last night. The report said:

"Massed motor transports and hostile batteries were attacked and casualties inflicted. The airmen engaged in spotting for the monitors shelling the German coast defences.

"During the latter part of the day large formations of our aircraft working inside the enemy lines encountered enemy planes. Four enemy planes were destroyed and four were brought down out of control. Thirteen of our machines are missing. A majority of them failed to return from the enemy lines after a sudden and violent rainstorm."

Germany's Straits.

Amsterdam, Sept. 29, via London, Sept. 30.—Germany's most serious hour seems to have struck, declares The Lokal Anzeiger, of Berlin, in discussing the Bulgarian question.

The Frankfurt Zeitung says: "It is useless to gloss over the news and we are not quite sure whether it would be useful to attach considerable importance to the semi-official attempts to veil the threatening recession of Bulgaria or raise any hopes."

"Head Feels Fine Breathe Freely Now"

Improved My Voice, Strengthened My Throat, Cured Me of Hawking and Spitting.

Miss Emma E. Norton Gives Great Praise to "Catarrhose."

"I just wish I had known years ago about the wonderful effect of CATARRHOSE," writes Miss Norton, from her home in Georgetown. "My nose and throat were continually stopped up, and I was seldom free from a gag in the throat. I coughed and hawked and often at night, couldn't sleep. Just a few breaths from a Catarrhose inhaler and my head was cleared right up. My throat trouble is now well and I haven't a single vestige of catarrh. Catarrhose made a perfect cure."

As the only way to reach catarrh is by inhaling medicated air, it follows that the healing balsams of Catarrhose can't fail to cure. It is a purely vegetable antiseptic—soothes and heals wherever it goes.

The germ-killing vapor is inhaled at the mouth and instantly spreads through all the breathing organs. Every case of bronchitis and catarrh is rooted out, and such health and strength is imparted that these troubles never again return.

Complete outfit, sufficient for two months use, price \$1, including the inhaler and liquid for filling; smaller trial sizes 25c. and 50c., all druggists and storekeepers, or The Catarrhose Co., Buffalo, N. Y., and Kingston, Canada.

## FORCED WAY FORWARD IN PALESTINE FIELD

Allies Up to Friday Night Had Captured 50,000 Prisoners

London, Sept. 30.—The following official report dealing with the operations in Palestine was issued last night:

"Throughout Friday the enemy offered resistance in the Tiberias area, holding the crossings of the upper Jordan and positions astride the roads to Mezirib and Deraa. In the evening Australian troops forced a passage of the Jordan, and on Saturday morning drove the enemy from his positions and crossed to the left bank.

"Southeast of Lake Tiberias our cavalry overcame the Turkish resistance at Irbid and Erreinta and drove the Arabs, being continued from the Deraa and is approaching Mezirib.

"King Hussein, who had captured the railroad stations of Esra and Bhaale, north of Deraa, on the Hedjaz line, on Thursday entered Deraa and Sheikh-Saad on Friday, taking 1,500 prisoners. Northward the movement of our cavalry, covered on their right by the Arabs, was being continued from the Deraa and is approaching Mezirib.

"On the southern area, in the Amman district, our columns up to Friday evening had captured 5,700 prisoners and twenty-eight guns east of the Jordan. On Saturday they were in touch about the El Kastal section, fourteen miles south of Amman, while the leading troops of the Turkish force retreated northward from Ma'an.

"Up to Friday night the capture of 50,000 prisoners and 325 guns had been reported."

HEAVY FIRING BY ITALIAN ARTILLERY

Rome, Sept. 30.—The War Office here reported last evening:

"Our artillery executed violent concentrations of fire upon the Asiago plateau and on the left bank of the Piave opposite Montello and on the Musile and Cortelazzo sectors. In the region of Mori and Cima di Val Bella attempted enemy assaults failed.

"In Albania, in the course of a daring reconnaissance in the valley of the Janica and the region south of Berat, our patrols engaged in lively combats with enemy advanced guards, overcame them and took fifty prisoners."

GERMANS FORCED TO TAKE THEIR TROOPS FROM ROUMANIA

Paris, Sept. 30.—The German forces of occupation in Roumania began to retire from that country on Friday, according to information received in Swiss political circles. There are persistent rumors in Switzerland that the Roumanian population has revolted. The German civil authorities are said to be removing their archives hastily.

## ANNOUNCEMENT

Our stock of Winter Suitings for men and women is now complete, and a really excellent stock it is. Beautiful serges in navy, brown, black and grey, also Scotch and English tweeds and worsteds.

## CHARLIE HOPE

1434 Government Street.

## CRUMBLING.

The whole German defensive system from the North Sea to Lorraine is rocking and commencing to crumble under the blows of Poch's mighty hammer, and must collapse within a very short time unless the enemy forces prove themselves able to do better than they have been doing in the last three days. Four of von Ludendorff's front gates are yielding under the relentless pressure of the Allied armies, while the rear entrance is fearfully menaced. In whatever direction the Great General Staff gazes it sees its forces, which only a few months ago were described by Berlin as on the high road to a German triumph, beaten back behind its key positions and in constantly growing danger of losing its vital communications.

In Belgium the Allies last night were within two miles of Roulers, the most easterly point reached by them since 1914, with Passchendaele, Houtholst Forest and Dixmude well behind them. They are in the northern and western outskirts of Cambrai. They have crossed the canal north of St. Quentin and are virtually investing the place on three sides. They have mastered the western heights of the Chemin des Dames and are outflanking the St. Gobain forest, thereby opening the way for an advance upon Laon, the elbow of the West Front, the vital hinge upon which the German line turns.

Notwithstanding the imminence of the fall of Cambrai, it is the advance of the Allies in Belgium which will attract the closest attention of military observers, for upon developments there may depend the nature of the enemy's retreat, which in any case cannot be delayed very long, and the location of the front upon which he will make his next stand. It has always been assumed that the Germans eventually would fall back upon a line running from the Belgian coast at Newport to the southwest of Lille and then eastward along the Franco-Belgian frontier to Lorraine, the great industrial city of northern France thus being enclosed in the German angle like Laon is now. By this expedient the enemy would retain his grip on the Belgian coast and, in fact, virtually what he now holds of Albert's kingdom. But the advance of the British and Belgian troops to within two miles of Roulers imperils that plan; it brings the Allies to the point of outflanking the enemy on both sides, that is to say, on the Belgian coast on the north and in the industrial region of which Lille is the centre on the south.

Roulers, which is six or seven miles northeast of Passchendaele, is on the main railroad line from Lille to Bruges and its possession by the Allies would be a gain of tremendous advantage. Both Britain and France will be particularly pleased with the victories won in this district by the Allies under the redoubtable Plumer—Britain because, if the advance should continue, it must compel the enemy to retire from the Belgian coast, and France because it holds the promise of such developments as to liberate the industrial districts of Lille, Turcoing and Roubaix and make it unnecessary to bombard them. It would seem at this moment that when the Hun forms a new front—if he should be able to do so—it must start at Antwerp, running south in front of Brussels to the region of Charleroi and then to the Meuse.

Cambrai, the hub of the vital communications of the German armies in Artois, is either in the hands of the Allies or must be soon. Following the capture of the Bourlon Wood and the defences east of the canal which connects the Schelde with the Somme, Canadian and British troops forced their way into the northern and western outskirts of the town. They thus appear about to possess one of the most important bastions of the German front in France, the key to the valley of the Schelde and the great railroad system which runs through Belgium to the Rhine. Even without actual possession their artillery commands the railroad to Valenciennes, Mons and Brussels, the vital lateral line which runs north to Douai, Lille and Flanders, and the railroad south to St. Quentin and Laon, not to speak of the multitude of highways which radiate out of Cambrai like the spokes of a wheel. Further, the fall of Cambrai must involve the loss of Douai, the other great German bastion farther north, enabling the Allies to cut across the southern side of the Lille region just as the Allies in Belgium are cutting across the northern side.

St. Quentin is almost as precariously situated as Cambrai. North of the two Australian and American troops have forced the Schelde or St. Quentin canal and captured the whole series of defensive positions there. As the French have pushed well to the southeast of St. Quentin the Allies thus dominate all its rearward communications with their artillery.

Next comes Laon, southeast of St. Quentin and the hinge of the German front. General Mangin's army there has begun to realize upon its slow but

methodical advance of the last few weeks. It has outflanked the Chemin des Dames on the West, throwing the enemy behind the Ailette, and thus has now practically eliminated one of the main ramparts of Laon. It must still cross the Ailette, however, and storm two heights which rise from the northern bank before it can turn the St. Gobain forest and reach the Laon plain. The Germans will put everything they have before Laon, for a rupture there would separate the front running north and south from the front running east and west. Likewise, in the Champagne and west of the Meuse they are offering the most desperate resistance to the slow but persistent progress of Gouraud's armies.

It is plain that the enemy's morale is breaking. He has sufficient forces for his immediate needs, but his heavy losses in prisoners and guns, however, show that the "invincible Michael" is not standing up under the burden of defeat. Foch has given him no rest since July 18 and, instead of slowing down, is increasing the number and power of his blows in battles "surpassing in violence and extent all those that have taken place before," to use his own words in the article contributed by him to a London journal last summer. And Lorraine and Alsace have yet to be heard from.

## BULGARIA QUILTS.

Germany has lost her Balkan corridor; Turkey is isolated and shortly will be assailed from the north; Serbia comes into her own; the liberation of Roumania is in sight, and Austria-Hungary, already fully occupied on the Piave and in the Trentino, is soon to be menaced by an army of more than a million men south of the Danube. This is what the negotiation of the armistice with Bulgaria on the terms laid down by the Allies means. Those terms, in a nutshell, called for unconditional surrender.

All this, following the destruction of three of Turkey's best armies in Palestine, will likely prove too much for the Sublime Porte from whom an overture for peace may be expected any moment. Turkey, it is true, was in the war long before Bulgaria, but it was an altogether different kind of bird and it had sufficient resources to enable it to put up a formidable fight, while it knew that Germany had "fixed" Ferdinand and the Bulgarian Government.

Now Turkey cannot hold her own on any front where she is opposed by important forces and if the Allies swooped upon her through Bulgaria she would not last more than a few weeks. The Bulgarians are almost certain to seek the permission of the Allies to attack their quondam ally, first to take Adrianople and next to show how penitent they are.

In any case, before long the Dardanelles and Bosphorus will be opened, and an Entente navy will enter the Black Sea, dispose of the ships handed over to Germany by the Bolsheviks, and create a new base of operations at Odessa and Sevastopol, from which the Huns will have to retire when their Black Sea communications with Roumania have been cut and contact has been established by the Allies with the Ukraine, the Czech-Slovaks and the Don Cossacks.

German and Austrian newspapers announce the dispatch of "vast masses" of Teutonic troops to Bulgaria's assistance. The Central Empires have no "vast masses" to spare for any front except the front between the North Sea and the Adriatic, and whatever troops are being sent to the Balkans are from Roumania and Russia. Bulgaria's military situation, however, is beyond repair; otherwise she would not have thrown up her hands. Furthermore, if Germany and Austria are not careful Bulgaria is very likely to take sides against them.

General von Stein, Prussian Minister for War, has resigned. It was von Stein who told the Prussian Diet last June that Foch's "strategic reserve has ceased to exist."

German newspapers promise the assistance of German armies to Bulgaria. If Germany has any "assistance" to spare it will be welcomed by the desperate German commanders on the West Front.

Neither Germany nor Austria has troops which can fight in the Balkan country as well as the Bulgars. What soldiers they had there were cleaned out by the Serbs at Veles and Krivolak without any trouble.

An extraordinarily large proportion of guns to prisoners continues to characterize the progress by the Allies on the West Front. On Saturday and Sunday the British and Belgians under General Plumer captured 300 guns and 9,000 prisoners.

President Wilson says the United States will not make peace with the present rulers and Governments of the Central Empires because they cannot be trusted. Thus, the war will go on until the peoples of those countries purge and democratize themselves.

The Belgian army under its gallant sovereign is playing a highly important part in one of the most vital operations of the great struggle on the West Front. Like the Serbian forces in Macedonia it might become an agency in bringing disaster to the enemy out of all proportion to its numbers.

## WESLEY SCHOLARS

## UNVEIL HONOR ROLL

Services Well Attended; "Festal Song" in Evening; Congregational Rally Thursday

Over two hundred scholars were present at the annual rally of Wesley Methodist Church yesterday when the Sunday School honor roll was unveiled by Dr. M. Raynor.

The following names appear on the framed roll:  
Stanley O'Neil, William Mitchell, Gordon Mitchell, Joyce Collins, Robert McBurnie, George Roberts, Sydney Daniels, Arthur Weight, Cecil Hinchcliffe, Walter Hinchcliffe, Wallace McKel, Donald Ross, Douglas Thompson, Stanley Young, Gordon Young, Leslie Wood, Douglas Wood, Fred Wood, Ellice Wood, Nelson Hinton, Charlie Hinton, Charles Green, Thomas Temple, Sydney Bowden, Douglas Hearn, Alex. Rombough, Harry Rombough, Edward Popham, Fred Popham, Paul Rush, Marston Jones, Sydney Burrows, Stinson Hamill, Leslie Pelling, T. E. Miller, Gordon Weismiller, Stanley Weismiller, Thomas King, Stewart Thompson, William Thompson, Frank Holder, Fred Endicott, Joseph Cottle, H. Griffith, Ernest Firth, Jack Shakespear.

**Soldiers of the Soil.**  
Verne Bond, Edmund Collins, Norman Collins, Lawrence Ramsell, Clifford McLennan, Eugene Pearson.

**National Service Girls.**  
Katherine McGregor, Miss Beattie, Miss Bowden, Miss Collins, Ada Gawley, Annie Emery, Margaret Jones, Mildred Beattie, Irene Armstrong.

**Harvest Cantata.**  
Under the baton of J. O. Welch, with Oliver Stout at the organ, the beautiful harvest cantata "The Festal Song" was rendered by a choir of thirty voices. The choruses were bright and spirited, while the special parts taken by Miss Amy Johnson, Mrs. Buit and Messrs. Guy and Mitchell did great justice to the faithful practice bestowed upon them.

On Thursday evening the congregation will hold a "Get Together" rally in the Church Hall, when refreshments will be served and a good time enjoyed.

"You're a swindler!" exclaimed a garrulous lady to a dealer in birds. "You're worse than a highway robber! You ought to be ashamed of yourself to cheat a poor innocent woman the way you did! That parrot I bought of you last week is a fraud. You said it was a fluent talker, and you charged me a big price for him, too, and that bird hasn't said a single word since I got him. Not one word! Do you hear me? Not one single word!"

"Perhaps," suggested the dealer, mildly, "you haven't given him a chance."

## Everybody Go to the Fair

Everybody go to the Fair this week! It is going to be great! A splendid exhibition that will prove interesting—and educative—to the majority of Victorians. Don't miss it.

While there, of course, see our exhibit of Weiler Made Furniture. Splendid examples of real comfort and correct style.

## Dinner Sets Special

Extra Values in Fine China

Here are four exceptional values in high-grade China Dinner Sets—values that are absolutely unbeatable.

Quality is the very best and the prices away below today's values. If you want something real good, here is your opportunity to secure them at a saving price.

See them in the window.

RECORD

(Continued from page 1.)

## Smashing Enemy Armies.

"For Foch, as for Napoleon," says The Mail, "to conquer is not to push back an enemy behind the lines; previously fixed upon, but gripping him everywhere, to break the integrity of his forces and then hurl him disintegrated and destroyed on the road to irreparable defeat. Like all great dramas which have changed the face of the world, the one which is being played during these fateful hours will bring triumph. Victory is in sight."

An examination of one section of the twenty-two-mile front on which Gen. Gouraud is attacking in the Champagne will give an idea of the German waste there. On the eve of the attack, Gen. Ludendorff, feeling uneasy, reinforced the defending forces with two or three divisions. After two days' fighting he threw in ten more divisions. Thus twelve or thirteen divisions have been used on a front of twenty-two miles only. From this the speed at which the German strength is being whittled away may easily be calculated.

## Decisive Phase.

The soberest and most conservative observers consider that yesterday marked the first step in the decisive phase of the war. Belgian troops got close to Roulers, British forces, marching up the Lys, will outflank Lille. The Siegfried line is going to pieces at two vital points, namely, Cambrai and St. Quentin, the fall of which places is considered a question of hours. La Catelet, the central pillar of the Hindenburg system, is outflanked. Gen. Mangin is driving the enemy north of the Chemin-des-Dames. Gen. Gouraud is at the gates of Challerange on his way to Vouziers, the key to the lateral railroad communications of the Germans. Moreover, during the last week the Allied forces on the Western front have taken more than 50,000 prisoners.

## The WEATHER

Daily Bulletin Furnished by the Victoria Meteorological Department.

Victoria, Sept. 30—5 a. m.—The barometer is rising and fair weather may again become general. Rain has fallen on Vancouver Island and the Lower Mainland and cold weather prevails in the prairie provinces.

## Reports.

Victoria—Barometer, 30.06; temperature, maximum yesterday, 56; minimum, 51; wind, 15 miles S. W.; weather, cloudy.

Vancouver—Barometer, 30.06; temperature, maximum yesterday, 72; minimum, 56; wind, 6 miles N. E.; rain, 20; weather, raining.

Kamloops—Barometer, 30.00; temperature, maximum yesterday, 76; minimum, 48; wind, calm; weather, clear.

Barkerville—Barometer, 30.10; temperature, maximum yesterday, 66; minimum, 32; wind, calm; weather, clear.

Prince Rupert—Barometer, 29.92; temperature, maximum yesterday, 78; minimum, 50; wind, calm; weather, clear.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, September 30, 1893.

The readers at present in use in the public schools of the province came in for a share of adverse criticism at yesterday's meeting of the Teachers' Institute.

The Merchants' Exchange Club was formally launched into existence yesterday afternoon, there being a large number of charter members at the meeting held for the purpose of organizing.

The members of the Victoria Lacrosse Club are to be entertained and presented with lockets on their return from the East.

The run to-day will be the 1,000th which the popular steamer City of Kingston has made to Victoria.

ance of the Five Hundred tournaments which were so enjoyable last year, a large attendance is requested.

James Bay Branch.

The regular monthly meeting was held in the rooms, Menzies Street, on Thursday evening, Mrs. Wilkinson, the convener, in the chair. There was a good attendance and a great deal of business transacted. A vote of sympathy was passed to Mrs. Shepherd, a prominent worker of the branch, on the loss of her only son, who was killed in action on September 2.

It was resolved to ask the clergy of all denominations to make a special appeal from the pulpit for Red Cross workers, it being pointed out that it was impossible to keep up with the demand for bandages, etc., unless more ladies came forward to help. F. Landsberg presented the financial statements for August and September. The committee expressed their great pleasure at Mr. Landsberg's presence, wishing him a speedy recovery from his recent accident, and took advantage of the occasion to put on record their appreciation of the splendid work he has done for the branch.

The Prisoners of War report was submitted by Mrs. Chapman and showed

ed a falling off in the collections. There are about 3,000 Canadian prisoners of war and if these men are to be kept alive it is absolutely essential there should be a continuous supply of food and clothing. The parcels are packed and sent off by women in England, who give their services free and work night and day to help the brave men who have lost their liberty in the fight for freedom.

A series of card parties will be held at the James Bay Hotel every two weeks during the coming winter, Mrs. Burge having kindly offered the use of her rooms to the branch.

Mr. Ravenhill was elected a member of the committee. It was decided that all raffie prizes not claimed in thirty days will be forfeited. Mr. Landsberg's action in promoting the P.N.A. swimming gala at the Gorge was endorsed. Mrs. Fowler, of the Beehive, kindly presented a "bride" doll to be raffled for the benefit of the branch and it will be on exhibition at the Fair.

## NO WONDER.

"I see by the papers that the Kaiser's wife is sick."

"Well, if you had to live with a guy like that you'd be sick too."

DAVID SPENCER, LIMITED

# Our Fall Stock of Men's, Women's and Children's Underwear

**Was Bought Twelve Months Ago and Is Offered at Prices Fully 20 to 25 Per Cent. Under To-day's Market Values**

The tremendous stock of underwear sold through our three stores enables us to concentrate our values and buy direct from the mills. This necessitates our ordering very early—usually 9 to 12 months ahead. The advantages are that we eliminate the jobber's profit, also saving considerably by preventing the duplicating of packing and repacking and extra freightage. In connection with this particular stock, we also had the advantage of buying it long before the most recent price advances came into effect—thus we are enabled to offer you a wonderful assortment of reliable quality undergarments at prices fully 20 to 25 per cent below today's recognized market values.

While our stocks are large and well represented—the improved conditions in the industrial outlook of this city, warrants our looking for increased demands—but should this increased business go beyond expectations and the preparations made, it will be very difficult later on in the season to fill the demand—even at much higher prices. Wise buyers will therefore consider their needs well ahead, and make sure of filling their particular requirements early.

**See Our Large Display Windows on View Street for Samples of Our Fall and Winter Underwear Values**

## Fall Underwear for Women

## A BEDTIME STORY

UNCLE WIGGILY AND THE HICKORY NUTS  
Copyright, 1918, by McClure Newspaper Syndicate.  
(By Howard R. Garis.)

Running, jumping, scurrying, crawling, hopping and flying, the animal boys and girls hurried through the woods and past the hollow stump bungalow, where Uncle Wiggily Longears, the bunny rabbit gentleman, lived with Nurse Jane Fussy Wuzzey, the muskrat lady housekeeper.

"Well, I see Sammie and Susie Littlebell, Jackie and Peetie Bow Wow, Lulu, Alice and Jimmie Wibblewobble, but I don't see my friends, Johnnie and Billie Bushytail, the squirrels, going to school," said Uncle Wiggily, as he looked through his glasses, which were sitting on top of his pink and twinkling nose.

"I don't see the squirrel boys, either," spoke Nurse Jane. "They'll be late if they don't hurry."

The old rat janitor in the log school rang the last bell, the lady mouse teacher closed the doors and still the two squirrel boys weren't to be seen.

"Something must have happened to them," said Uncle Wiggily, as he came down off his porch. "I'll go to their house and see. Maybe they don't know this is Monday morning."

So Uncle Wiggily hopped over to the home of the two little squirrel boys and, out in front, he saw Dr. Possum's auto.

"Johnnie and Billie must be sick," thought the bunny uncle.

And that was just what was the matter. The squirrel boys had the fever and couldn't go to school.

"Will they get well?" asked Uncle Wiggily of Dr. Possum.

"Oh, yes," was the answer, "but be better more quickly if they had some fresh hickory nuts. That's what the little squirrels need, but I don't know how I can get any for them."

"Say no more!" cried Uncle Wiggily. "I'll go get new and fresh hickory nuts for my friends Johnnie and Billie. But I must have a bag in which to put the nuts as I gather them in the woods."

"Here you are!" chattered Mrs. Bushytail, the squirrel lady. "Take a clean pillow case. That's as good as a bag. It is very kind of you, Mr. Longears, to go to all this trouble for my little boys."

"No trouble at all! It's only fun for me, and maybe I'll have an adventure!" said the rabbit gentleman as he twinkled his pink nose harder than ever—like a prune pie.

Off he went to the woods with the pillow case bag over his shoulder, to look for hickory nuts, and it was not long before he had found a tree full. But the nuts were high up on it.

"Ho, hum!" said Uncle Wiggily, sorrowful like. "I was just thinking how glad I am that hickory nuts are smooth and not sticky and prickly like chestnuts, but now the hickory nuts are so high up that I can't reach them. Oh, dear!"

"Ha! Don't let that worry you!" cried a jolly voice. "I'll soon have some nuts down on the ground where you can pick them up." asked Uncle Wiggily.

"Jack Frost" was the answer. Then

Jack made the hickory nuts very cold with his chilly breath, so they shrunk in their bark coverings, and the coverings split in four pieces and the nuts dropped out and to the ground.

Then Uncle Wiggily filled his pillow case bag full of the new, white, shiny hickory nuts, and they were smooth and slippery from just having come out of their husks.

"Oh, what a fine lot of new hickory nuts I'll have for Billie and Johnnie," said Uncle Wiggily, as he slung the bag over his shoulder again, and started back through the woods.

And just as he did that, a bad red fox, who was hiding behind the bushes, said to himself:

"And what a fine lot of fresh soups I'll bite off your ears, Mr. Longears, when I catch you!"

Then the fox began to run after the bunny.

"On and on ran the fox, and away and away ran Uncle Wiggily to get home first. But the fox could run the faster and the bunny, looking back over his shoulder, saw that he would soon be caught.

"Oh, what shall I do?" he cried. "What shall I do?"

"Spill some of the hickory nuts out of the pillow case bag," called a little red ant lady to the bunny. "Spill some of the hickory nuts on the ground."

"What for?" asked Uncle Wiggily.

"So the fox will step on them and hurt his feet, and then he will slip and slide and stumble and he can't catch you," said the red ant lady.

So Uncle Wiggily quickly spilled some new, slippery hickory nuts out of his bag. On came the fox, but when he stepped on the nuts he cried: "Woah! Ow!" and he slid and slipped and stumbled and fell down and bumped his nose and by the time he got up the bunny was far, far away, safe at home with most of the nuts, and soon Johnnie and Billie were all better.

So everything came out all right, you see, and if the moon doesn't look so much like a green cheese that the cow tries to eat it for grass, I'll tell you next about Uncle Wiggily and the umbrella fixer.

Theories cause more worry than facts.

## IN WOMAN'S DOMAIN

### Social Personal

Miss Davies, of the High School staff, spent the week-end with friends in Vancouver.

Miss Vera Mason is visiting in Vancouver as the guest of her sister, Mrs. Roger Monteith, Harwood Street.

Mrs. J. A. P. Crompton will not be "at home" again on her usual day—the first Tuesday—until further notice.

Dr. Ella J. Fifield, of Tacoma, and Mrs. Minnie W. Aydelotte, of Oakland, Cal., are guests at the Empress Hotel.

Mrs. J. L. Noble has been the guest of Mrs. E. C. Reichard, Shaughnessy Heights, Vancouver, for the past few days.

Mrs. M. Mutrie has been visiting in Vancouver for the past few days as the guest of her daughter, Mrs. E. A. Gregory-Allen.

W. G. McMyun, Superintendent of Provincial Police, and Mrs. McMyun returned home on Saturday after a week's trip to the upper country.

Mrs. J. O. Graham is visiting Mrs. J. W. Kerr, of Shaughnessy Heights, Vancouver, and on Friday was the guest of honor at a bridge tea arranged by her sister, Mrs. Edmund Cowdrey.

Mr. and Mrs. Frank J. Selj have returned to their home in this city after having spent the past ten days in a motor tour of Vancouver Island, as far as Campbell River and Alberni.

A Greig, who has been attached to the staff of the local branch of the Bank of British North America since the beginning of the year, has been transferred to Lillooet, and left Victoria on Saturday to take up his new duties in the interior.

Mrs. Margaret Jenkins has returned home after a two weeks' visit to friends in Winnipeg. Mrs. Jenkins came back via the Grand Trunk Railway, and was much impressed by the grandeur of the scenery along that route.

The Attorney-General and Mrs. J. W. deB. Farris left on this afternoon's boat for Vancouver, where they will remain until Thursday. While in the Mainland city Mrs. Farris will attend a meeting of the Board of Governors of the University of B. C., of which body she is a member.

The many friends of Lieut. L. C. Fillmore, who is lying seriously ill with pneumonia at St. Joseph's, following an operation for appendicitis, will be interested to hear that inquiry at the hospital this morning elicited the information that he had passed a fair night and is progressing as well as can be expected.

The Women's Auxiliary of the Comrades of the Great War have completed arrangements for the holding of a military five hundred party in the Comrades' rooms on Thursday evening, October 3. The name will be under the direction of Mr. Wilby. As the proceeds are to be devoted to the funds for the assistance of the returned men, the members of the Auxiliary hope for a large attendance of friends on that occasion.

The closing of navigation in the Yukon has resulted in the coming to Victoria of a number of prospectors and business men from Dawson, many of these having registered at the local hotels. With the advent of the winter season in the North the exodus is very great, the southbound boats being filled with passengers escaping from the rigors of the Northern winter, and the consequent isolation from the rest of the world.

### THE 'GATORS WERE TIMID.

A naval officer, wishing to bathe in a Ceylon river, asked a native to show him a place where there were no alligators. The native took him to a pond close to the estuary.

The officer enjoyed the dip. While drying himself he asked his guide why there were never any alligators in that pool.

"Because, sah," the Cingalese replied, "they plenty afraid of shark."—Pittsburg Chronicle-Telegraph.

### Sunlight does it

You who always dread wash day—because of the hours of weary, wash-board rubbing, the damp steamy air, with perhaps your skirt and shoes splashed and soaked—just forget all that. Come into the case and comfort of a Sunlight Wash Day.

Sunlight Soap will do the wash—you can go out calling or shopping. Read the directions.

### "THE GIFT CENTRE"

September's Birthstone—the Sapphire. It's meaning—Wisdom.

"Just as you say you will not change your style of buying, so you go hungry."—Canada Food Board.

### Wrist Watches

FOR LADIES  
FOR SOLDIERS

More emphatic than a page of print, more convincing than word of mouth is the PURCHASE of a Wrist Watch from "The Gift Centre"—here.

VALUE is determined not by PRICE (the first cost) but by SERVICE. We have Wrist Watches at all prices, but no matter the price you are assured of receiving the very best VALUE for the price you pay.

**LADIES' WRIST WATCHES.**—From the severely plain to the handsome gold expansion Wrist Watch the variety is here.

**SOLDIERS' WRIST WATCHES.**—With or without luminous dials. Strong leather wrist bands. Buy him one NOW.

## BONNIE BABIES ENTER CONTEST AT DUNCAN

Small Victoria Daughter Takes Honors; Dr. A. G. Price Imparts Invaluable Advice

Of all the interesting exhibits staged at the Cowichan Jubilee Fair perhaps the most attractive to the women visitors was the baby clinic at which forty babies were examined by Dr. A. G. Price, of Victoria. The contest was arranged through the instrumentality of Mrs. V. S. MacLachlan, who is greatly interested in the matter of child welfare; Miss Thom, Victoria Anti-tubercular nurse, and the Board of Directors of the King's Daughters Hospital at Duncan, including Miss Curry, late superintendent of the hospital; Mrs. J. H. Whitmore, of Ellington, and Miss Wilson. This committee had the invaluable assistance of Miss Campbell, the public health nurse of Vancouver, who aided Dr. Price in the work of measuring and weighing the babies.

### Defects Pointed Out.

The contest was staged in a suite of rooms specially adapted for such a purpose. Airy, light and spacious they provide excellent accommodation for the entrance and the interested visitors who watched the proceedings. The forty babies were proudly displayed by their mothers, and the majority of the infants stood the ordeal uncomplainingly. Remedial defects were pointed out, which taken in time will, in many cases, prevent serious trouble in after life.

In addition to the examination, invaluable information as to the feeding, clothing and general care of infants were imparted to the mothers by means of a series of models and illustrated charts. A cot which was the very essence of cleanliness and comfort had been fashioned from a banana crate, and the cost complete was but the modest sum of \$1.50. A crib for an older baby was furnished with a windshield, as well as a simple, but clever contrivance to prevent the infant from sucking its thumb. Samples of the various foods suitable for children, as well as a complete shortening set, completed the exhibits in this section.

### Better Babies' Contest.

The result of the contest was as follows: Champion baby of the show—Beatrice Doreen Marshall, 21 months, daughter of Mr. and Mrs. Charles Marshall, Sahtlam, Duncan (soldier); total points, 220.

Division 1, boys and girls under 6 months—1, June Kathleen McAllister, 5 months, daughter of Mr. and Mrs. C. W. McAllister, manager, Royal Dairy, Victoria, B. C., total points, 219½; 2, Robert Earl Weismiller, 3 months 21 days, son of Mr. and Mrs. Earl Weismiller, Duncan, farmer, total points, 219; and Mary Jane Venier, 5½ months, daughter of Mr. and Mrs. M. Vanier, Duncan, logger, total points, 219.

Division 2, boys and girls, 6 to 12 months—1, Rowanda Edens Fawcett, 8½ months, son of Mr. and Mrs. H. C. Fawcett, Duncan, station agent, total points, 218½; 2, Lily Maude Antoinette Frumento, 18 months, daughter of Mr. and Mrs. A. L. Frumento, Cowichan Bay, merchant, total points, 218; and Thelma Purchase, 8½ months old, daughter of Mrs. G. Purchase, Nanaimo, total points, 218.

Division 3, boys, 13 to 24 months—1, Donald Crawford, Here, 19½ months, son of Mr. and Mrs. A. Hope Herd, Courtenay, B. C., editor, total points, 219; 2, Peter Seaward Tautz, 19 months, son of Mr. and Mrs. G. F. Tautz, Duncan, B. C. farmer, total points, 218.

Division 4, girls 13 to 24 months—1, Beatrice Doreen Marshall, 21 months, daughter of Mr. and Mrs. Charles Marshall, Sahtlam, Duncan, total points, 220; 2, Evelyn Margaret Tisdall, 18 months, daughter of Mr. and Mrs. G. A. Tisdall, Duncan, B. C. banker, total points, 219½.

## VICTORIA V. A. D. DIES IN ENGLAND

Miss Dorothy Twist, of Shawigan; Succumbed to Pneumonia Last Thursday

The grim reaper has exacted his first toll of the band of brave women and girls who have gone overseas from Victoria as members of that vast army of V.A.D. workers, who have accomplished such magnificent work in the military hospitals of the allies. The first to make the great sacrifice in the course of duty is Miss Dorothy Twist, daughter of Mr. and Mrs. Twist, of Shawigan, who has died in England, according to the sad message which reached the city yesterday.

A telegram to Mrs. Chas. E. Wilson, lady superintendent of the Victoria Central Nursing Division, No. 34, from Chas. C. Copp, assistant commissioner of the St. John Ambulance association headquarters at Toronto, conveyed the tragic news that Miss Twist had succumbed to pneumonia on September 26 at Frensham Military hospital, Surrey, England. In the absence of any previous word as to her illness, the tidings caused a deep shock to the former associates of the young nurse. The bereaved parents had, however, received word earlier in the week to the effect that their daughter was lying seriously ill, but the news of her death on Thursday was none the less a severe shock.

Miss Twist left Victoria in May last

in company with Miss Florence Bailey and Miss Ethel Clark, for Toronto, en route for service overseas with a V.A.D. draft. She took her course of home nursing and first aid in Victoria, but had previously had nursing experience in a hospital in Switzerland during the war. The news of her untimely death will be received with regret through the whole of Vancouver Island, where she had earned many friends by her sunny, kindly disposition.

There is no end of trouble in a family that has two heads.

**BLUE RIBBON  
TEA**

Is by far the strongest tea on the market, and its delicious flavor costs you nothing extra. You may as well drink the best tea in your home, especially when, owing to extra strength, it really costs less.

## Charming Afternoon and Dinner Gowns

There are so many fascinating styles, so many interesting details in these new Gowns that it would be impossible to give an adequate description of each individual garment. The materials are Georgette, taffeta, crepe meteor, satin and many beautiful combinations. Included are a few Black Lace Dinner Gowns. Two descriptions are:

Beautiful Dress of taupe satin, with long silk-embroidered panel back and front, to tone, edged with fringe. This is a collarless model; piped with satin embroidery, in contrasting shades; wide satin girdle; and wide flowing sleeves.

Charming Dinner Gown of black satin, with bodice and side panels of black silk lace; wide girdle; inset at front of bodice of white tulle; and features ornamental cuff effect.

Prices From \$22.50 Up

**Scurrah's**

## ENTHUSIASM MARKS OPENING DAY OF HOME PRODUCTS FAIR

Industrial and Commercial Activities of City and District Graphically Displayed; Invalided Soldiers Shows Skill in Handicrafts

Victoria's 1918 Home Products Fair opened at three o'clock this afternoon with all the splendor and enthusiasm that it was possible to put into the affair. The building was gaily decorated throughout, the massive columns of the ground floor of the Hudson's Bay Company's Building being clothed in the effective softness of yellow and white bunting.

Typical of the country, ferns and green moss were profusely used in the decorations of the many booths, while flowers of every sort and color were interspersed freely throughout the building. The British Columbia Electric Railway Company, Limited, supplied the light gratis. The scene thus enlivened was one of beauty, and the rich tones of the 5th Regiment Orchestra added all that was needed of a miniature fairyland.

The consensus of opinion is that this year's Fair is far and away ahead of last year. There is a delicate touch to everything which makes this year's event one of extremely high class. The arrangement of the booths, the decorations, the light effect, in fact every detail about the Fair is a credit to the promoters, and the manufacturers. The affair this year is again due mainly to the efforts of members of the Victoria & Island Development Association and the Victoria branch of the B. C. Manufacturers' Association. G. I. Warren is Manager, and the assistant is F. Westley Newton, who has been associated with each of the fairs. In addition to the strictly industrial and commercial exhibits there are several exhibits which are of special interest, chief among which are the wonderful displays made by the local gardeners, the Invalided Soldiers' Commission, and the British Columbia Department of Agriculture, of which A. H. Sholtz is in charge.

The Ladies' Rest room is a feature of this year's show that is worthy of comment. The cozy little corner has been draped and furnished by Gordon's, Limited, and there is a drinking fountain just outside the entrance. The management has provided three hundred chairs, which are distributed throughout the building for the convenience of the visitors.

The Victoria Gas Company is furnishing the gas for all the booths where it is required for demonstrating purposes, this being a new feature of the exhibition, which is much appreciated as it enables exhibitors to supply coffee, manufacture biscuits and demonstrate other essential points of local industry.

The band stand this year is situated in the middle of the big building, and is a most attractively arranged affair, the raised platform being surrounded with innumerable ferns and plants of all descriptions, which gives the place a garden-like appearance.

**To-Day's Programme.**  
2.00—Official opening.  
3.45—Musical programme, by Fifth Regiment Band Orchestra.  
8.30—Community sing.  
**To-Morrow's Programme.**  
8.00—Orchestra.  
8.30—Naval Brigade manoeuvres.  
9.00—Boxing.

**SOLDIERS' VOCATIONAL WORK.**  
A unique exhibit of handicrafts executed by our returned soldiers under the direction of the Invalided Soldiers' Commission Vocational Department is on display.

This exhibit will be doubly interesting in that the visitors to the Fair will be able to see for themselves the actual work being done by the returned men. Everything in connection with the display has also been done by them, from the constructional work down to the smallest show card. One of the special features to be seen is a twelve-foot rowboat in the course of construction. All the exhibits have been made by the patients in the various hospitals on Vancouver Island. This is a part of the

## UNSAFE GUN CAUSES SERIOUS ACCIDENT

John Kershaw Receives Terrible Wound While Hunting; May Recover

The second serious accident this season due to unsafe firearms occurred yesterday, when John Kershaw, a youth of seventeen, received from the gun he was carrying a wound, which it is feared may prove fatal. The young man in company with two others was hunting in the Happy Valley district, and it is believed that his gun went off when it fell and the hammer hit a rock.

The charge of shot caught him full in the chest above the heart, injuring the lung, and for a time little hope was entertained for his life, but it is possible that he may live if no complications arise.

From the information gleaned by the Provincial Police it seems that a party consisting of Kershaw, who lives on Flagstaff Street, William Levings, of the George, and James R. Fielding, of Craigflower Road, went out on bicycles yesterday to the Happy Valley district and proceeded to hunt on the west side of Hawkins Mountain. Kershaw was carrying a one-barrel hammer shotgun belonging to one of the other men, both of whom were armed with rifles, for the party was in quest of deer.

A Terrible Wound.  
Fielding and Levings, it is believed, were walking slightly ahead of Kershaw, the youngest of the party. About noon the latter sat down on a sloping rock to remove a sliver from his hand, and he placed his gun in the crook of his arm, the barrel pointing over his shoulder. Apparently the gun which was at "safe" slipped and, as it fell, the hammer struck the rock and was forced against the cap of the shell causing it to explode.

The charge caught Kershaw full in the chest about an inch above the heart, inflicting a terrible wound and coming out behind the left shoulder. Some of the shot also carried his left arm and cut off a portion of his left ear, besides penetrating the lung. The great danger, says Dr. Lennox who is attending to the patient, is that the penetration of the lung may give rise to a serious hemorrhage. Besides a large amount of tissue has been carried away and the lung is exposed.

When Constable Carter reached the scene of the accident he heard Kershaw calling for water. He bandaged the wounded lad as best he could, and with the assistance of Alfred Hawkins, Henderson Smith and John Stockham, residents of the district, he constructed a rough stretcher. On this Kershaw was borne to the road and, on the arrival of Dr. Lennox and the ambulance, was rushed to the St. Joseph's Hospital, where he is lying at present. Little hope was entertained for his recovery last night, but this morning his condition is much improved and it is possible, should no complications arise, that he may yet recover.

The gun which was the cause of the accident and which was loaded with No. 4 shot is now in possession of the Provincial Police. It is obvious by its condition that it is altogether unsafe. When it is placed at "safe" it is possible to press the hammer down until the firing pin strikes the cap, and, indeed, the hammer has a mark which it is thought was made by the rock. It would have been easy for the accident to occur in this manner.

**SHAKER OF WHISKY**  
Colts Pete Johnson \$400; Officers Had to Struggle for Liquid.

A second offence under the B. C. Prohibition Act resulted in a sentence of a \$400 fine, or a term of four months in prison, passed this morning by Magistrate Jay in the Police Court upon Pete Johnson. Johnson, it was stated in the evidence, given by the police, had some liquor in the Victoria bar, of which he is the proprietor, and the court proceedings resulted from its seizure by the officers.

Inspector Heatley told the court how he and Sgt. Blackstock entered the Victoria bar and found on a shelf behind the counter a vessel commonly known as a "shaker" which, it was thought, contained whiskey. The Inspector reached across the bar and tried to seize the shaker, but Johnson made a grab for it, and struggling against the efforts of the officer, succeeded in upsetting most of the contents. However, the officers managed to get sufficient of the liquid to have it analyzed. An analysis showed it to contain over the prescribed amount of alcohol, Johnson has paid the fine.

## ONE OF FIVE SONS IS KILLED IN ACTION

Is Brother to Pte. H. Thompson, Who Left Victoria With 30th Battalion

Private H. Thompson, of 2907 Ruby Road, yesterday received news of his youngest brother Alfred being killed in action on August 27. He had been in France over two years with the Imperial army and had been wounded twice previously. He leaves a wife and one child, and is one of five brothers who are doing or have done their bit. His brother Frank, who went over with the 30th Battalion, is still in France and has so far come through without a scratch, while Pte. H. Thompson, who also went over with the 30th, was wounded at Passchendaele on November 9, and is still at Resthaven.

Other Casualties.  
Pte. Robert Lawrie Todd, who appeared in recent casualty lists among those suffering from the effects of gas, formerly resided at Haultain Street, and was among the men who have left in the recent drafts from Victoria. Driver Arthur Riley, wounded, is a son of Thomas Riley, 2439 Cranmore Street, and has passed through most of the severe fighting of the last two years. Driver Edward McIntyre, according to information received by Mrs. M. McIntyre, of Chaucer Street, Oak Bay, is also among the many artillery men who have been affected by gas.

A former pastor of the Wellington District Methodist Church, Pte. Evan Baker, who left Victoria with the Canadian Army Medical Corps, has

been admitted to hospital with wounds in the shoulder and thigh. His injuries were sustained during the big drive on Amiens. He is now in hospital at Birmingham.

Gunner C. C. Meads, who has been serving with the 51st Battery in France for the past year has been admitted to hospital, gassed. He is a native son of Victoria, and youngest son of Mr. and Mrs. T. C. Meads, of Esquimalt. He left Victoria with the 15th Brigade in 1916, and before enlisting was employed at Mitchell Brothers' warehouse. Sapper R. D. Thomas, who before enlisting was secretary for the Pacific Great Eastern Railway Company, is seriously ill in the East, according to word received by his mother and two sisters who live on Dallas Road. He left with the Railway Troops from Vancouver a few weeks ago. A brother, Lieut. George Thomas, is now with the Railway Troops in France.

Mrs. W. Rivers, 1127 Oscar Street, has received word that her son, Pte. William Rivers, who was wounded in the right thigh and left hip on September 2, has been moved from hospital in Etaples, France, to Cardiff, Wales, and is recovering rapidly. Pte. Rivers left here with the sixth draft, 2nd Depot Battalion, on April 8, 1918.

## VACANT LOT SCHEME WENT WELL THIS YEAR

Over Four Thousand Acres in Province, According to Census

As the father of the Vacant Lot Conservation Act—officially known as the Greater Food Production Act—

## Babies' Feeding Bottles

The bottle with the valve is best—Easily Cleaned.

We have everything for baby, and

We have a Drug Store in your locality.

PHONES James Bay Junction Oak Bay PHONES

Premier Oliver finds considerable interest in figures supplied to him by the Provincial Department of Agriculture this morning.

From the census taken by means of cards issued by the Department to the school children, it is now learned that hitherto unused land—mainly consisting of idle lots—to the extent of 4,591 acres in British Columbia have been brought under cultivation during the

present year. In other words the Greater Food Production Act has not fallen short of the results expected of it in assisting the voluntary movement.

It is interesting to note that in the City of Victoria alone 362 acres have been brought into production during 1918, and that taking Vancouver, the Gulf Islands and Victoria altogether the total for the immediate coast localities amounts to 1,199 acres.

# Home Products Fair Week

The management are expecting a much larger attendance this week than ever before. So help boost it along by your presence, and give the manufacturers a little encouragement by boosting you home town, and incidentally the Capital of B.C.

Twenty thousand visitors from up the Island are surely coming this week—and the

## LECTURES ON BIBLE PROPHECY

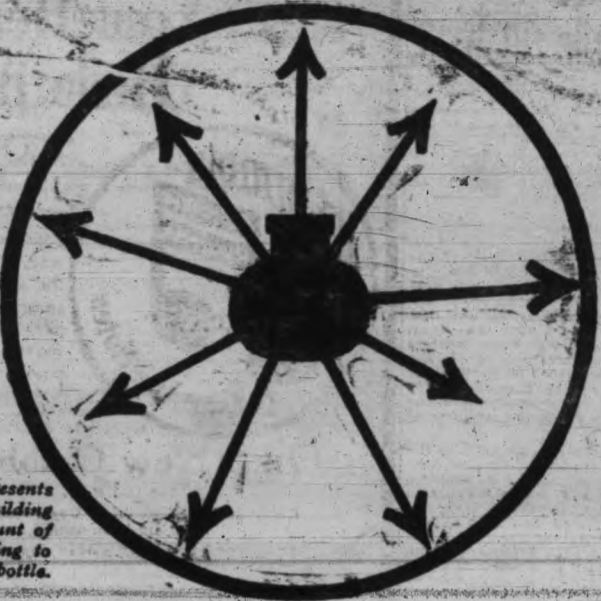

MR. MARK LEV

Will (D.V.) give four addresses at CLOVERDALE HALL on subjects of great interest to all Christians, commencing

TUESDAY, OCTOBER 1.

at 8 p. m., as follows:

Tuesday, Oct. 1—"THE OLD TESTAMENT PRODIGAL"  
Wednesday and Thursday, Oct. 2 and 3—"THE TIME OF THE END."  
Friday, Oct. 4—"PALESTINE AND THE FUTURE OF THE JEWS."  
Prove all things. Hold fast that which is good.—1 Thess. v. 21.  
Mr. E. R. Tarling's lecture on Ezekiel I. is postponed until further notice.  
All free. No collection.

The circle represents the actual body-building power of an amount of Bovril corresponding to the small black bottle.

## Bovril Creates Power

Bovril creates power as surely as heat steam; the Power to think, the Power to do. It is having its effect on the whole race, building sturdy men and women, increasing happiness, supplying that energy and vitality which makes the mere fact of living a pleasure.

Just as a tiny speck of Radium radiates light, so a little Bovril radiates Power. In each of these precious substances immense energy dwells.

The wonderful body-building properties of Bovril were conclusively proved by one of the premier physiologists of the world, Professor Thompson. The tests were reported to the British Medical Association, and they showed that

the Body-building Power of Bovril is 10 times the amount to 20 taken.

### ISLAND BREEDERS WIN HONORS AT DUNCAN

Livestock an Outstanding Feature of Jubilee Fair; Many Visitors Saturday

Saturday was the closing day of the Cowichan Jubilee Fair and, from the point of view of attendance proved a record occasion in the annals of fair history in Duncan. From early morning until late evening crowds of visitors from every direction poured into the grounds and hall. The culminating event was the big ball, at which many hundreds danced until the midnight hour to the strains of music furnished by the 5th Regiment Band, of Victoria.

**List of Prizes.**  
The judging of the livestock occupied the whole of Friday afternoon and attracted many farmers and breeders from the Island and Mainland, who were unanimous in their praise of the fine animals exhibited. The awards were as follows:

VICTORIA---The Fighting Port

THE THIRD ANNUAL

## Home Products Fair

In the Hudson's Bay Building  
VICTORIA, B. C.

To-day and All This Week

**BE A HOME TOWN BOOSTER!** Remember that local spending for Home Products will keep the old pot boiling. You can't save money by sending it out of town. That only through co-operation can the best results be obtained. The manufacturers of Victoria invite your co-operation by attending the HOME PRODUCTS FAIR.

Never before have the citizens of Victoria had such a golden opportunity to demonstrate the manufacturing possibilities of their fair city. United efforts by all will make these possibilities a CERTAINTY. Nothing can prevent the full development of VICTORIA AS A MANUFACTURING CENTRE. Co-operation means prosperity for all. Start the ball rolling by viewing the exhibits at the Home Products Fair; you will then no doubt become thoroughly convinced that "things" can be made in Victoria as good—EVEN BETTER—than elsewhere. Then make up your mind that in future you will ALWAYS DEMAND VICTORIA-MADE GOODS.

## YOU CAN MAKE VICTORIA THE PAY-ROLL CITY

Special Rate of Fare and One-Third for the Round Trip Will Be Given by the E. & N. Railway to Victoria During the Fair.

**Baby Buggy Repairs and Tires** put on at Wilson's Repair Shop, 612 Commercial.

**Excellent Display of events of yesterday** in pictures. Young's studio, Union Bank entrance.

**Band Well Received.** Widespread enthusiasm greeted the first appearance on Saturday evening of the Merchants' Booster Band, which under bandmaster Rowland, marched about the main thoroughfares of the city playing airs. This civilian band will fill a long-felt need in Victoria, and that the people appreciate it was evidenced by the manner in which crowds surged about the gathered musicians on the occasion of their "first night." The band circled about the business section no less than three times during the evening, and it is said that the stores of the city did an unusually big business on account of the gathered crowds. The band will be on hand again next Saturday to stir things up, and a record crowd is anticipated.

**Missing Man.**—The Provincial Police are at present searching for a man named J. W. Herbert, who came here from Guff, Saskatchewan, and, it is believed, worked in the shipyards. He was last seen on May 24.

**Alleged Worthless Cheque.**—Ronald Hodgkinson appeared in the Police Court this morning charged with obtaining \$2 by means of a worthless cheque. The case was remanded until to-morrow.

**Disclaimer.**—Ex-Corporal Harry Edwards, a returned soldier who left Victoria with the 103rd Battalion and now resides on Belmont Avenue, wishes to draw attention to the fact that he is not the returned soldier of the same name who was charged before Magistrate Jay with abetting a forgery.

**Corporal Wins Medal.**—For attention to duty on the field, Corporal W. E. Carr, who has been in the war zone over two years, has been awarded the Military Medal. He left Victoria, where he had resided for eight years previous to enlistment, with the 13th Field Ambulance Corps in June, 1916.

**Forgery Case Concluded.**—The conclusion of the recent forgery charges which have been occupying the time of the Police Court for some days past, this morning took the form of a sentence of three months in prison for Harry Edwards, charged with aiding and abetting Edna Elsie Charron, a woman with whom he was living, to forge a cheque. It was brought out in the proceedings that the woman had been living with Edwards, and considered herself in the light of his wife, though she knew that his wife was alive. A military pay cheque had come with the name of Edward's wife on it, and she had endorsed it, thus, as she admitted, committing a forgery. She was allowed out on suspended sentence, but Edwards was sentenced to three months this morning.

**UNNECESSARY.**

An Adirondack guide one day fell asleep in the woods and a bug crawled in his ear. A naturalist, who was one of the hunting party was able to discern the insect with his microscope. After a careful examination he walked away without making any attempt to relieve the guide's distress. "Why didn't you take it out of his ear?" asked one of his friends. "What did I want with it?" queried the absorbed naturalist. "I already have a specimen of that kind of bug in my collection."—Lippincott's Magazine.

**Your Eye Is Like a Camera**

The eye is an optical instrument similar to a camera in construction, and like a camera, its intricate system of lenses is sometimes disarranged, so that an improper focus results.

It is my business to find out if the eyes are in a perfect visual condition, and to grind lenses that correct all sight deficiencies.

Let me help you to clear, comfortable vision, with a pair of suitable glasses.

**MEMBERS OF CABINET HEADED FOR THE WEST**

Mr. Rowell to Be Followed by Hon. F. B. Carvell, Due Next Week

When the Hon. F. B. Carvell, Minister of Public Works, visits the city towards the end of next week, the programme mapped out for him will afford him an opportunity to see that Vancouver Island is a long way from state of slumber. Numerous matters of moment to Victoria and the Island in general will be placed before him for consideration, prominent among which will be harbor improvements and the national urgency for a new drydock at Esquimalt.

Premier Oliver will again take up the question of responsibility for the construction and maintenance of wharves in the province and that of dyking to prevent erosion in the case of navigable streams. Mr. Carvell has also kindly consented to address the Canadian Club and to receive a deputation from the Victoria Board of Trade.

Mr. Rowell at Duncan.

With the visit to Duncan on Saturday, the Hon. N. W. Rowell, President of the Privy Council of Canada, brought his engagements on the Island to an end. Although it is little more than three years since the distinguished visitor was here last, he expressed himself before leaving for the Mainland as highly gratified at the general conditions and extremely hopeful for the future of the capital city of the province.

While here Mr. Rowell was not neglected and from the various public bodies with which he came in contact he will have gleaned a fairly good idea of what Victoria expects, and the general moderation of her demands will doubtless have a beneficial effect during discussion in the inner councils.

**At the Ballroom.**

The Cabinet Minister was delighted with his motor trip to Duncan, impressed with what he saw at the Fall Fair, and none the less interested in the tour of the immediate locality.

In response to the toast to the Minister, proposed at the luncheon at the Bunsen Vista Hotel by J. C. McIntosh M.P., Mr. Rowell dealt with a number of subjects referred to at length at the Canadian Club luncheon here and spared some comment for his trip to the battlefield in France.

He was warm in his praise of the magnificent work of the men from the Old Land and the Overseas Dominions, but he was obviously moved by his remembrance of the marvellous manner in which the eighteen-year-old striplings acquitted themselves after their rush to France to help stem the German advance in the early months of the year.

**Cavalcade of Ministers.**

Following Mr. Carvell other members of the Federal Cabinet will journey westward in this order: The Hon. Martin Burrell, Secretary of State and Minister of Mines; the Hon. J. D. Reid, Minister of Railways and Canals; the Hon. Sir Thomas White, Minister of Finance; the Hon. J. A. Calder, Minister of Immigration and Colonization; the Hon. Arthur Meighen, Minister of the Interior; and Major-General the Hon. S. C. McBurney, Minister of Militia.

**A FIGHTING FAMILY**

**PTE. HUGH T. HAMPTON**

a native son of Victoria, and one of a family who have made big sacrifices for the country, has been killed while fighting with the Third Battalion.

**RAIN ENDS THIRTY-SEVEN DAYS' DROUGHT**

Driest September Since 1874; Rain Not Heavy Enough to Extinguish Fires

The longest spell of drought experienced in September since 1874 was brought to a close yesterday afternoon, when rain commenced to fall at 3 p. m. Somewhat feeble at first, the precipitation grew heavier during the night, and up till five o'clock this morning it ceased. The amount of rain registered was .10 of an inch. The fall was general over the south end of Vancouver Island, while from the Island up to Prince Rupert fair weather was experienced during the same period. Rain also fell on the lower Mainland, though not to any great depth.

While the precipitation has been insufficient to quench the forest fires which have been raging with such disastrous results on the Island and the Mainland, it will undoubtedly help the fire fighters in their work, while the rain would be welcome to motorists who have to traverse the dusty roads resulting from the long dry spell. Synonymous with the drought in British Columbia has been an exceptionally heavy spell of rain in California, which, accompanied by a biting wind, has done tremendous damage to fruit crops.

**Long Drought in 1893.**

Although the longest period of

## W. J. PENDRAY & SONS

(LIMITED)

1875—VICTORIA—1918

### HOME HELPS

For the Homekeeper

White Swan Soap  
White Swan Naptha Soap  
White Swan Washing Powder  
White Swan Cleanser  
Castile Soap  
Pine Tar Soap  
Glycerine Soap  
Pendray's Lye  
Pendray's Ammonia  
Pendray's Blueing  
Pendray's Vinegar  
Pendray's Waterglass  
(For Preserving Eggs)

### WHITE SWAN NAPTHA SOAP

No hot water—either cold or just comfortably warm to the hands.

White Swan Naptha Soap is the latest and best production of the soapmaker's skill.

It is a perfectly balanced soap—that is, the ingredients are so proportioned that they react in such manner as to give ideal results in the laundry.

You need cold water only. It saves not only back-breaking labor but fuel as well.

### THE DOLLAR SENT AWAY NEVER COMES BACK

Flourishing Industries  
Are the Life of Any  
City—Responsibility  
of Victoria Citizens to Their  
Home Town

First of all: Like a good physician who examines his patient to ascertain the cause of his illness, and if possible to remove the cause, the manufacturers of Victoria are anxious to determine the reason why so many of the citizens, instead of buying "Made-in-Victoria" goods, have acquired the habit of buying similar goods that are manufactured elsewhere. If the reason is due to high prices, inferior quality, etc., the Victoria manufacturers would ask no further consideration.

But this is not the case. The products of our local factories are of outstanding quality, and the prices are as reasonable, and sometimes more reasonable, than those articles that are manufactured a thousand and more miles away.

Flourishing industries and up-to-date mercantile establishments are the life of any city. Those we already have with us rank among the very best of the Province, but Victoria would have a far greater population to-day, with many more big industries, many added business blocks, and scores of beautiful residences, if all our citizens had been true to their own home town.

Think it over. Remember that the dollar you send away from Victoria never comes back to the city. It might surprise you to know that the profit on merchandise bought by Victoria citizens in the past ten years from other parts of Canada—goods that could have been purchased satisfactorily in Victoria—would build and equip a mammoth factory or mill employing at least 10,000 men at high wages. Think it over!

### Where Sail Meets Rail— VICTORIA

THE RAW MATERIALS OF THE WORLD MUST BE ASSEMBLED  
SOMEWHERE—WHY NOT VICTORIA

### Bapco Pure Paint and Bapco Varnish

are of the highest possible standard. The raw materials must undergo chemical and laboratory tests to prove their fitness for their particular purpose. Skilled paint and varnish makers see that the ingredients are perfectly proportioned, and modern machinery insures a proper grinding and blending.

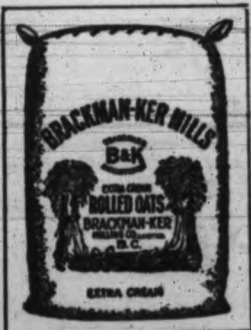

Rigid machine and chemical tests are made during process of manufacture and the completed mixtures must then undergo the comparative tests with the fixed Standard. One big roof of the factory is devoted to space for actual weather tests.

All this care results in high quality products that are successfully meeting competition in the markets of Western Canada. Ample distributing facilities are provided by branches and warehouses at Vancouver, Calgary, Edmonton and Regina.

The growth of the British America Paint Co., Limited, and its constantly expanding trade territory is convincing evidence, not only of the quality of its goods, but of its resourcefulness and enterprise as well.

Makers  
of  
Blouses

## Neckwear and Novelties

While at the Home Products Fair this week your attention is invited to the display of "MODEL" Blouses, Neckwear and Novelties, where you will find garments—MADE IN VICTORIA—that will greatly excel anything of the kind previously shown in this city.

Every article displayed at the Fair (or at our premises, 736 Yates Street), was designed and made by our own corps of skilled modistes.

A Blouse selected from our regular lines will give utmost satisfaction. If a copy of some charming Paris or New York model is desired, we can make it for you. You can also select your own materials, and we will make a Blouse to your own ideas—to any design.

We ask you to make a careful examination of the materials used in our Blouses—even to the minutest detail of construction. Also ask about the prices—you will be surprised to know that our Blouses will cost less (much less) than the imported ready-to-wear varieties.

## ARE YOU LOYAL TO YOUR OWN TOWN?

Read These Questions.  
Answer Them Honestly  
—and Decide for Your-  
self Whether or Not  
You Are Doing Every-  
thing You Can for the  
Community in Which  
You Live?

Are you a truly loyal  
citizen of Victoria?

Are you doing all that  
can reasonably be ex-  
pected of you to make  
Victoria a bigger and  
better city?

Are you doing your  
full duty to your busi-  
ness associates and fel-  
low citizens generally?

Ask the above ques-  
tions of the average citi-  
zen you meet and you  
will in all probability re-  
ceive a most emphatic  
affirmative answer. But  
pursue the subject fur-  
ther. Ask the average  
citizen whether he has  
acquired the habit of  
patronizing home in-  
dustries, and the  
chances are that the  
answer will be less posi-  
tive. To these people  
add the following ques-  
tions:

Are you patronizing  
home merchants and  
home industries?

Are you spending as  
far as is possible your  
money in the commu-  
nity in which you live?

Are you by your pa-  
tronage helping to make  
Victoria's industries all  
that their proprietors,  
as well as the commu-  
nity at large, would like  
them to be?

Do you know that  
when you turn down a  
Victoria-made product,  
and buy a similar pro-  
duct that has been man-  
ufactured in another  
city, you are helping  
every time to boom that  
other city, and you are  
at the same time dis-  
couraging the Victoria  
manufacturer?

Ponder a moment on  
these questions. Re-  
member that every time  
you retard the advance-  
ment of an enterprise in  
Victoria, you also re-  
tard your own success  
and prosperity as a resi-  
dent of Victoria.

There are a number  
of other reasons why  
you should patronize  
Victoria industries. You  
will find them at the  
Home Products Fair, to  
be held at the Hudson's  
Bay Building, Sept. 30  
to October 5, inclusive.

## Miss Chocoletto Is Missing!

Who is Miss Chocoletto?

She is Stevenson's Mysterious Lady who will be "somewhere" in the building during the HOME PRODUCTS FAIR.

You will no doubt come across this lady many times during a visit to the Fair, although you may not be aware of the fact. She has about fifteen different characters which she assumes during each day, so, if you want to win the reward offered for her detection, you will have to exercise your powers of observation.

### A Reward Offered

Call at STEVENSON'S "Homade" booth and obtain full details of the Mysterious Lady and the reward offered for her detection. You will also see a most astonishing demonstration of what Victoria can accomplish in the way of manufactures.

You will see heaps of famous "HOMADE" CHOCOLATES AND CANDIES, in fancy boxes and baskets, a sight that would convert the most pessimistic "sour" tooth, and tickle the fancy of a confirmed epicure.

SUGARLESS CANDIES will form an important part of our exhibit. It will demonstrate the fact that delicious confections can be eaten and enjoyed without endangering the sugar supply. You can eat these Candies with a clear conscience.

Branches: 1115 Douglas Street and in Williams' Drug Store, Corner of Port and Government Sts.

## GIVE LOCAL-MADE ARTICLES A FAIR TEST

Abraham Lincoln's Sensible Comments on This Very Question — Victoria Manufacturers Are Confident of the Result

Abraham Lincoln said, "I don't know much about the tariff, but I do know that if my wife buys her cloak in America, we get the money and the cloak, and that American labor is paid for manufacturing it. If she buys her cloak abroad, we get only the cloak; the other country gets the money, and foreign labor receives the benefit."

The same argument applies to local buying. If a Victoria citizen buys an article manufactured in Halifax, for example, then Halifax gets the money; whereas if a Victoria-made article had been purchased, a Victoria manufacturer would get the money.

Don't you see the point? In a nutshell, Victoria citizens have the future of the city in their own hands. We all want to make a bigger and better city of it, but the right and proper starting-place is in first of all patronizing home industries.

Help the local manufacturers to be successful by encouraging them to the utmost of your ability; and this in turn will encourage other manufacturers to locate here.

Don't turn up your nose at an article just because it is made in Victoria.

Give it a fair trial.

Sample it in your own home.

Pass your well-considered judgment upon it.

Go to the factory and see it in the making, if you will.

Ask for all possible information about it.

This is all that the Victoria manufacturers ask.

They feel confident of the result.

## SEE OUR EXHIBIT Of Real Solid Comfort Furniture

Don't miss our Exhibit of Victoria-Made Furniture at the Fair.

You'll see a Chesterfield and some Chairs that combine real genuine comfort and service with unusually stylish appearance. The showing is not as large as we would like to make but we must try to fill our orders.

We have never been more busy in these lines—a compliment to the products of the Weiler Workrooms and to the fifty-five years of value-giving of which we are justly proud.

We guarantee the part you cannot see—an item to remember when buying upholstered furniture.

### BE A BOOSTER FOR VICTORIA-MADE GOODS

Take Advantage of Your Visit to the Fair and Spread the Gospel of Local Patriotism Far and Wide

The Home Products Fair next week, it is confidently believed, will be the best in the history of the city. Local manufacturers and merchants have come forward willingly and eagerly, and have made excellent displays of their products, in the hope that Victoria citizens will attend in large numbers and make a thorough investigation of the goods that are on show for their edification. Make a point of attending the fair. Ask your neighbors to go with you. Find out for yourself what Victoria manufacturers have accomplished. If you are satisfied, after testing local-made goods, that they are all they are claimed to be, and that they are worthy of patronage, then make a solemn resolution that from now on they will be included in your every order for household necessities.

### Victoria Will Become What Its Citizens Intend to Make It

Victoria has a great future before it. It has previously been known as a tourist resort, but henceforth it will be known as both a tourist resort and a great manufacturing and industrial centre. The big shipbuilding programme will soon be in full swing. Thousands of men will be employed. There will be a great industrial revival. And just as the shipyards have taken on a new lease of life, so there is no reason why the manufacturing establishments should not also be placed on a more firm basis, and they can be if the citizens of Victoria will do all they can to patronise home-made products.

When buying your household necessities, ask to see Victoria-made goods first of all. Let the grocer know that above all you are patriotic. Decide that in the future your money will ultimately remain in the city where you earn your living. It is in this way that cities grow. It is the chief, the main road to Victoria's prosperity.

## TO-DAY'S AMUSEMENTS

Royal Victoria—The Mystic Alexander  
Variety—Pauline Frederick in "Sapho"  
Columbia—Sessue Hayakawa in "The City of Dim Faces"  
Dominion—Theda Bara in "Under the Yoke"  
Romano—Bryant Washburn in "Kidder & Co."  
Pantages—Emmy Wehlan in "The Shell Game"

## DOMINION

The Philippines during the early days of the American occupation form the setting for the Theda Bara super-pro-

duction, "Under the Yoke," which will be the feature attraction for all week at the Dominion Theatre, beginning to-day.

Besides depicting the splendor of the tropics, the picture gives a thrilling story of the love for an American army officer of the beautiful daughter of a wealthy Spanish grandee. The girl and the officer are captured by a Spaniard whose attentions the heiress had rejected. About to be put to death, the officer, through the quick wit of the girl, is rescued, and the Spaniard captor is wounded.

Other numbers on the bill are the Paramount Mack-Sennett comedy "Ladies First," which is one of the best laugh makers imaginable.

## VARIETY

Commencing to-day, the attraction at the Variety Theatre will be the much heralded and long waited for production of Sessue Hayakawa's immortal drama "Sapho."

The title role is in the capable hands

of Pauline Frederick, supported by a cast of artists each one of which was selected for his or her particular merits in portraying character as called for in a true portrayal of this powerful story of love and passion.

The film production of "Sapho" has created a furor wherever shown and the assurance given the management of the Variety that the screen edition adheres faithfully to the story and loses nothing of the powerful appeal of the original script, warrants their claim that this is worthy of being heralded as the screen event of the season. Miss Frederick's delineation of the character of Sapho rises to the heights of positive genius and is a wonderful tribute to the producers responsible for the selection of this supreme artist to portray the oft attempted and ambitious role of the heroine of Daudet's powerful story.

## ROMANO

Business men of this city will find a lot of wholesome enjoyment in "Kidder & Co." the Pathe play that comes to the Romano Theatre this evening, continuing to-morrow and Wednesday.

Bryant Washburn is the son of an old farmer of codfish in Maine. He sticks to the old ways of doing business, but manages to amass a considerable fortune. He sends the son to college, but is convinced that the boy will never amount to anything. He's full of fool notions, the boy is, according to the old man's way of thinking, and his chief distinction is as a pool champion.

Then, when dad tells him to go away and return with 10,000 "iron men," the boy, who labors under the name of Outright, comes to life. He goes away, falls in love, and rustles up a lot of ambition to amount to something, and manages to make a success of himself.

How he does it is a novel and amusing that one warm right up with sympathy for the young biver.

Bryant Washburn made a big hit when he appeared in "Skinner's Dress Suit" and followed that with "Twenty-One," but it is a certainty that he will surpass his previous record with "Kidder & Co."

## COLUMBIA

The quaint Chinese manners and customs of the Oriental quarter of San Francisco are shown with rare fidelity to truth in "The City of Dim Faces," the new starring vehicle for Sessue Hayakawa, the famous Japanese actor, which will be shown at the Columbia Theatre for three days, starting to-night.

In this photoplay Mr. Hayakawa portrays the role of a young half-cast Chinaman, the son of a wealthy silk merchant in the Chinese quarter. He is unaware that his mother is a white woman and that she is kept a prisoner in an underground den by his own father. He is educated in an Eastern university, and at a school gathering he comes in contact with a charming young woman, whom he loves devotedly. They plight their troth, and later breaking their engagement, and he, in revenge, sells her to a Chinese marriage broker. When the secret of his birth is revealed, the white blood in his veins prompts him to rescue her from a life of shame, as a slave, at the cost of his own life.

The scenes of this superb photoplay were photographed in the Chinese quarter of San Francisco, and many Orientals take part therein. Mr. Hayakawa has a support of the highest merit, many famous screen players portraying the various characterizations necessary to the development of the theme. The scenario was written by Frances Marion and the production directed by George Melford. The photography is excellent.

The first installment of "Vengeance and the Woman" will also be presented during the next three days, the story, which will be unfolded in fifteen weekly numbers, being one of the most thrilling tales which have been presented. The opening installment will include a jail-breaking, in which a locomotive is used as a get-away by desperadoes, and a collision between

## PANTAGES

Emmy Wehlan once more, slender, blonde and charming. And "The Shell Game," in which she is appearing on the Pantages screen to-day and Tues-

day, is a fascinating story, worthy of her powers—another clever picture added to her other Metro productions, including "The Outsider," "The Trail of the Shadow," "Sowers and Reapers," and "The Duchess of Doubt."

"The Shell Game" has both serious and light moments. It gives the star opportunity to display both her wonderful artistry and her exquisite gown. For she has not been named "exquisite Emmy Wehlan" without a reason.

"The Shell Game," adapted from an original story by Kenneth L. Roberts in The Saturday Evening Post, is an instance of the clever idea of "the cheater cheated," of innocence getting up a little bit earlier in the morning than Wickedness.

In the picture field Miss Wehlan has made an enviable name for herself and has played in many Metro successes, some of them being "When a Woman Loves, or Tables Turned," "Her Reckoning," "The Pretenders," and the "Outsider," written by Louis Joseph Vance and adapted to the screen by June Mathis and Charles A. Taylor.

In this, her new picture for Metro, Miss Wehlan has been given a part that is well fitted for her versatile talent and she plays the part to full advantage.

## CHORAL SOCIETY

Rehearsals for Coming Season's Productions Open With Marked Enthusiasm.

The second rehearsal of the 1915-1916 season of the Choral Society will be held to-morrow night in St. John's Hall, Herald Street, adjoining the Hudson's Bay Building. Last week at the first rehearsal seventy-five members reported. For a first rehearsal this was remarkable, but not more so than the display of enthusiasm which marked the whole evening. Notwithstanding that the major portion of the time was occupied in allocating seats, issuing cards, etc., the greatest enthusiasm prevailed and was manifested in the applause which greeted the addresses of J. D. Macey and J. G. Brown, two of the pillars of the Society, and reached its height when the members sang "He's a Jolly Good Fellow" as Gideon Hicks took up the baton, attesting to his great popularity.

A very considerable number of the old members and others who have intimated their desire to join the Society were not able to be present last Tuesday. The Committee expects all those to present themselves to the Secretary to-morrow evening for enrolment and are reminded that the fees are payable in advance; the list of members cannot be kept open indefinitely, and may be closed after the rehearsal.

The members of the Reception, Registration and Seating Committees are requested to be at the hall not later than 7.45 p. m., also all who have not registered should present themselves to the Secretary at the same time.

## TWO PREMIER DANCERS TO ASSIST ALEXANDER

Nartell Sisters From Bombay  
Are Recognized Exponents  
of Oriental Art

As an added attraction to his all new \$50,000 Show of Wonders this season, Alexander, "The Man Who Knows," has culled, after assiduously searching for several months, from the dance element of the Orient, two of the premier dancers of the Far East, girls born to the subtle seductive atmosphere of India, the Nartell Sisters. These girls, twins, still in their teens and possessing a wonderful personality and a winsomeness that comes only with the spontaneity of youth, are recognized as the foremost exponents of the more popular Oriental originations embodied in the category of torpichean creations and come most naturally by their unusual ability to interpret the same. They were born in Bombay, their paternal parent being an English army officer and their mother a high caste belle, and they take much pride in their conscientious efforts to perpetuate the dances of the land of their nativity. Prominent among their most recent creations is the "Tribute to Buddha," described as a nerve tingling novelty and a fitting number in which to display their thorough knowledge of the theosophy of motion.

Alexander has an entire new production, with the possible exception of his famous "Sinner's Serenade" crystal gazing. Among the numerous tests introduced is the famous slate test, the ultimate syllable in psychical achievement and presented only by Alexander. This is positively the only time in the history of science that this test has been so successfully mastered that a public presentation was possible.

New and original feats of legerdmain constitute the opening part of the programme. Many of these were secured on his recent trip to India. It has been this initiative on the part of Alexander that has placed his name at the head of all magicians, in addition to his being recognized as the peer of psychics.

Lillian Marion, for several seasons prominently identified with light and grand opera organizations, appears especially in the temple scene, rendering the songs essential to the correct atmosphere engendered by the setting. During the Alexander engagement, which begins to-night and will continue

all week, there will be a special matinee for the ladies on Friday and a general matinee on Saturday.

A Picturization of Alphonse Daudet's Immortal Drama.

A psychological study of a type of woman hood—A searching out of the heart of a woman who transfers her affections even as she might change her garb.

In the role of "Sapho" Pauline Frederick has been provided with a vehicle admirably suited to the display of her wonderful ability as an emotional actress. She rises to heights of artistry never seen in her former productions.

ALLIES' OFFICIAL WAR REVIEW

Variety Orchestra.

### ANOTHER MONTH AND CLOCKS WILL REVERT

Daylight Saving Will End in  
Early Morning of  
October 31

Although Great Britain's clocks were set back exactly one hour this morning, thus bringing to a close this season's daylight saving plan, another month has still to expire before the people of Canada will be allowed to rise in the morning plus the present camouflaged hour.

The clocks of the United States will go back to the original time on October 28, and Canada will follow five days later. Therefore, in the absence of any official notification to the contrary Victorians will require to place their clocks back exactly sixty minutes after the first hour on Thursday, October 31 next.

That the advance of the hour during the summer months has been an inestimable boon to all lovers of the great outdoors goes without saying, while the statistician will doubtless come along in the very near future with an interesting digest showing to the last cent the amount of fuel saved in Canada as a result of six months with an additional hour of daylight saved daily.

Victorians have benefited, perhaps, more than the inhabitants of any other city in the Dominion by reason of the exceptionally brilliant weather throughout the summer and early fall months. During June and July the daylight hour went very close to ten o'clock in the evening while the benefit of the whole period covered by the regulation was enhanced by remarkably clear days and a record for bright sunshine, extending up till Saturday evening last with scarcely a break.

It is remarkable to note that since April the number of hours of bright sunshine for the city of Victoria have been largely in excess of the Kamloops record for the same period. And although the interior city is the centre of the British Columbia dry belt it has had to bow to Victoria both in the matter of sun and rain. This year will be noteworthy for Kamloops since its rainfall has been considerably greater than for the same period for many years past.

## PORTUGAL STANDING STAINCHLY BESIDE THE LARGER ALLIES

Portuguese Capitalist Arrives  
Here After Extensive  
Tour

### LEAGUE OF NATIONS AND MORE TRADE AFTER WAR

War's effects upon the commerce, the national life and the people of Portugal were described to a Times representative yesterday morning by Senor Manuel Diaz Fonseca, a Portuguese gentleman, who, after an extensive tour of North and South America, arrived in Victoria on Thursday with his wife. Being a retired capitalist of considerable note in his own country, and having travelled from Lisbon and thence through many of the South American nations, he is in an excellent position to speak upon the ravages of war in different parts of the globe.

Of particular interest were his remarks on his home land, one of the smallest of the Allies, for it is seldom that a Portuguese citizen passes through here, and his description of the efforts of that gallant little country to bring about the fall of Prussianism, is well calculated to open the eyes of most westerners.

#### A Roundabout Route.

Senor Fonseca reached this country by an extremely roundabout route, adopted largely to escape the dangers of submarines in the Atlantic. He left Lisbon with his wife in the spring of this year, and proceeded to Brazil, where he has extensive interests, and where he at one time made his home. From Brazil he went to the Argentine and occupied some time investigating the conditions of that country. Crossing into the Pacific around the Straits of Magellan, he sailed up the west coast of South America, landing at many of the important ports, and on numerous occasions going inland and looking over the country. After several months of travel he arrived at the Isthmus of Panama, and recrossed into the Atlantic, coming north along the east coast of the United States. Near Newport News the ship sighted a hostile submarine, but the steamer reached port without any damage having been done by the Hun under-water craft.

#### Came West.

The Portuguese traveller journeyed west from New York, crossing the Canadian border on this side of the Great Lakes, and coming on to Vancouver. He expects to leave in a few days for the United States, it being his intention to travel through California and later in Eastern Canada, remaining on the American continent until after the war. He has no wish to encounter the difficulties he deems it more pleasant here than in Europe at this time.

#### The Political Skein.

The political situation in Portugal to-day, said Senor Fonseca, is permeated in every department with the effects of the war, a victory over the Central Powers being the national aim, and the great objective of the country at large. However, the little nation has its troubles at home, but now that the republican form of government is firmly established, and that the country is united in a great purpose, internal turmoil such as was prevalent some years ago, has almost entirely disappeared. "Since we have abolished the monarchic conditions in Portugal," continued Senor Fonseca, "things have improved tremendously. Yes, there are few monarchists left in our country now."

#### Attitude Towards Spain.

"Yes, we are very good friends with the Spanish," said Senor Fonseca with a look that lent force to his next statement, "but we are not allies. Spain is a monarchy, and we are a republic. We do not, what you call, fit together. In Spain there are two great parties, the army and the aristocrats, who together form the monarchist class, which is pro-German."

"On the other hand, strange to say, the King and the people are democratic, almost republican in their sympathies, and of course they abhor the autocracy of Potsdam. However, opposed by the army they are powerless to throw in their lot with the Allies, and so continued the Portuguese traveller with a disdained shrug, "Spain remains a neutral, and watches her ships go down."

Though Spain and Portugal are on the most friendly terms, more than half the army of the latter country is stationed at home, and for many years the two nations regarded each other with inveterate hate. Portugal being jealous of the efforts of the Spaniards to subvert their national independence as was actually the case in past years.

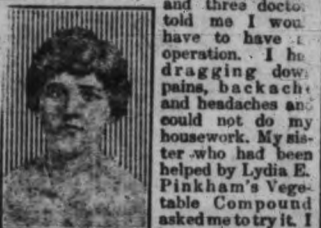

#### Number in the Field.

Though small in herself, Portugal,

## THIS WOMAN ESCAPED AN OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound. Many Others Have Done the Same.

Troy, N. Y.—"I suffered for more than seven months from a displacement and three doctors told me I would have to have an operation. I was dragging down, pains, backache and headaches and could not do my housework. My sister who had been helped by Lydia E. Pinkham's Vegetable Compound asked me to try it. I have taken several bottles and am now entirely well—so I do all my work—and not a trace of my old trouble. I have told many of my friends what wonderful results they will get from its use."—Mrs. S. J. SENTER, 1850 5th Ave., Troy, N. Y.

Women who are in Mrs. Senter's condition should not give up hope or submit to such an ordeal until they have given Lydia E. Pinkham's Vegetable Compound a trial.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

since joining the Allies, has mobilized all her resources for the prosecution of the war, says Senor Fonseca.

"In 1912, our standing army," he informed the Times representative, "numbered 32,000, and our war footing was 175,000. Now," he said proudly, "we have 100,000 men in France, and we constantly maintain that number, sending regular monthly reinforcements. Stationed in Africa are probably 50,000, and, as I said, at home in our own country are 200,000. In pre-war times we had compulsory service, established in 1895, by which all men over twenty-one had to spend a certain time in the army. Now every man from eighteen to forty-five is in some branch of the service. That is a considerable increase, is it not?"

#### Financed by Britain.

Perhaps one of the most interesting of Senor Fonseca's statements was that Britain advanced the funds required to maintain these troops in the field, as Portugal's resources were insufficient to pay the expenses of her war efforts.

Portugal, like the other European nations, had been hard hit by the ravages of the Hun and, in common with her neighbors, she was short, said Mr. Fonseca, in many commodities. "For instance," he remarked, "we did a large trade with Germany before the war, and now that of course has ceased. Besides, Britain now needs nearly all of her coal and iron for munitions and is making huge inroads into the wheat of the Argentine. We have, however, sufficient food, grown at home, to keep us going. What is what we don't grow in large quantities, and we have to rely on the Argentine to a large extent. The shortage of wool, as well, has seriously affected our cloth-weaving trade. But then, what does it matter, we are helping to beat Germany. We have always been a poor nation, and we are not feeling the war anything like the French or Italians."

#### No Peace Without Victory.

"Portugal," said Senor Fonseca, "is determined not to withdraw from the struggle until a clean peace has been obtained, and we know that after the war we will enter upon a new era of prosperity, and that our manufactures and industries generally will increase tremendously. And why? Because we will belong to the great league of allied nations which will have gained the victory for democracy."

"Then don't you think your people," queried the Times representative, "will trade with the Huns when peace comes?"

"I do not think so," he replied gravely. "I think the Central Powers will be outlawed."

#### Do Not Want Territory.

In answer to another question, Senor Fonseca explained that Portugal was not seeking territorial gains from the war, having all the land she wished in Africa for colonizing purposes, but she did expect that the Allies would stand by her commercially as she had stood behind them in the field, and that great trading possibilities would thus result. She was not anticipating indemnities or return to her ancient glory, and she only wished, when peace finally came, to enjoy sufficient prosperity to pay her enormous debts incurred by the war.

#### South American Situation.

In order to look over his commercial interests in Brazil, Senor Fonseca investigated conditions in that country very carefully. The people of Brazil are enthusiastic supporters of the Allies, he says, and their small fleet has been of much service. Industry is thriving there, but the coffee trade, one of the leading activities of the country, has suffered much on account of the European turmoil, and the comparatively small demands for coffee now. Many tons of this product, said Mr. Fonseca, were being wasted because of these small requirements.

#### Much Wheat.

"In Argentine, this year," continued the Portuguese visitor, "the grain crop appeared to be excellent, and there is an abundance of cattle. The Allies are using as much of these things as they can get, but the ravages of the submarines has greatly hindered this export. On the West Coast of South America, the war seems to have had small effect, and I noticed nothing out of the ordinary in those countries."

#### THRIFT.

She was comely and a widow, and, moreover, she was Scotch. She mourned MacIntyre, her late husband, for eighteen months, and then from a crowd of suitors chose honest, homely MacIntyre for her second. "I'm no guid enough for ye, dear," he whispered. "What for did ye choose me out o' she mony?" "Ah, weel, ye see, your name's MacIntyre." "Yes, but—" began the bewildered suitor. "An' ye ken," finished the widow, "all my linen's marked 'MacI'—that's why, Donald."

## Active Tires that are Economical

The Goodyear Cord Tire is made up of thousands of light, strong cords, laid layer on layer without cross-weave. Each cord and each layer is upholstered with a springy cushion of pure rubber.

This construction makes a tire almost invulnerably strong; yet spry, active, and fast as a tempered spring.

Blow-outs and like troubles are minimized. Easier riding is assured. Fuel consumption is reduced, acceleration is quickened, speed is increased, and mileage is lengthened.

These positive qualities of the Goodyear Cord Tire have made it the largest selling tire in its class. It has won a place for itself on five-ton trucks traveling cross-country at high speeds. It is standard equipment on over a dozen famous cars. It was used by all the prize-winners in all the important American races in over a year.

Most important to you—users of Goodyear Cord Tires frequently report to us mileages as high as 20,000.

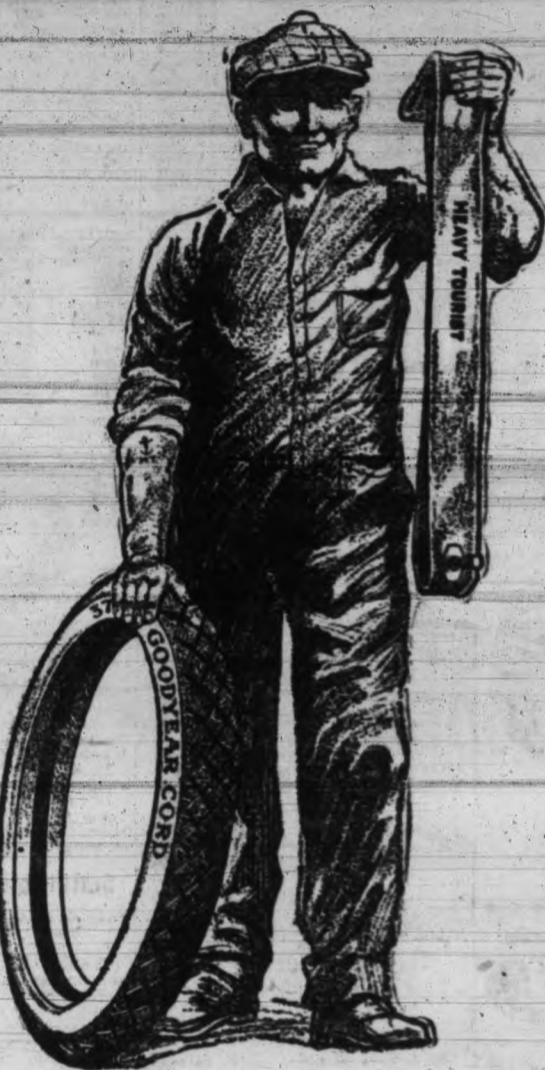

Although Goodyear Cord Tires are higher-priced, their long mileage, saving of gasoline, and saving of car depreciation, make them cost less in the end.

In addition, you enjoy easier riding, freedom from trouble, and distinctive appearance.

Goodyear No-Hook Cord Tires can now be secured at fair "Made in Canada" prices.

The Goodyear Heavy Tourist Tube is specially suited for service with the Goodyear Cord Tire. It is best for any tire. It is extra thick and extra good. It is enclosed in a handy, handsome bag. Tube, bag and box are all stamped "Heavy Tourist" for your protection.

## LETTERS

### "VICTORIA ISLAND."

To the Editor.—Vancouver Island is my home as well as that of a good many others. If the name of the Island is to be changed, why not call it "Victoria Island" instead of some jaw-breaker. Call it "Queen Victoria Island" or "Victoria Island."

B. BLANCHARD.

### CHANGE OF NAME.

To the Editor.—With reference to the changing of the name of Vancouver Island—an island with the proportions of a kingdom—would it not be better to retain the name, as a memorial of the intrepid explorer, and leave the modern city on the mainland to do the changing.

F. B. GREGORY.

### ARMENIAN AND SYRIAN ORPHANS

To the Editor.—Now a problem lies before us—thousands and thousands of these little ones lift up pleading hands and say, "Save us from starvation! Five dollars a month will save one. Are there not six people in Victoria who will each be responsible for the life of one of these little ones? Would it not be a joy to feel you have saved one from the pangs of hunger—and perhaps set free a little life that may be given to seek the good of other lives about him or her, and a little heart given to the Saviour who so dearly loves these little ones?"

You say—I can hear many say it—we are giving all we can to the Red Cross and the Patriotic Fund. Yes, so

we should, and then squeeze ourselves a little more and save one of these children. You know what diabolical cruelty has deprived them of father and mother. You know what faithfulness "even unto death" has been shown by these Armenian Christians. Is it much for us who are Christians to feed their starving children? Shame upon us, if we let them die!

Now, anyone wishing to help in this work will feel it a happy and blessed work—but I would advise every one to take it as from the hands of the Saviour, who bids us "feed His lambs," and to bring to Him for blessing all our gifts, and to pray continually that He will send helpers and help, until not one is left to starve. You can find others who will be glad to give you \$1 or 50 cents, and \$50 a year will keep the child. You can get a card and mark it off in sixty squares, asking a dollar for each square. Would you not be happy in trying?

I hope some will think of these little sufferers with loving hearts and pray for them and for all the nation, with intense earnest prayer, which cannot fail of an answer.

Doubtless some will remember the

awful conditions described in The Collier a week ago, being the account brought by Mrs. Eva Hall Douglas to the American Committee for Armenian and Syrian Relief. She had just arrived from Teheran, Persia, and said the people were grazing in the field like cattle. Children come to the rest houses with the flesh just hanging on their bones like rags, voices gone, but eyes pleading for a crust. Shall they plead in vain? O, surely not. Mrs. Douglas said the memory of those faces would remain with her forever.

Mr. Vichery, of the New York Armenian and Syrian Relief Society, showed me recently receipts of money received by those who administer relief in the East, and dollar for dollar is received and accounted carefully given. I mention this as some have asked, "Are you sure they get the money?" They certainly have done so.

Contributions may be sent direct to Toronto, to A. Cameron, Bank of Commerce, or to myself.

MISS CAROLINE MACKLEM,  
1124 Richardson Street, Victoria, B.C.  
P.S.—I shall be glad to supply collecting cards to anyone who is kind enough to use them.

## WHEN YOU TELEPHONE BE SURE OF YOUR NUMBER

Trying to remember telephone numbers is one of life's most futile strivings.

Always consult your telephone directory—do not trust to your memory for numbers. It takes only ten or twelve seconds to make sure—ten or twelve seconds spent as an insurance against delay and inconvenience.

The very first requirement of effective telephone service is that the directory be consulted before calling.

## GERMANS WERE KEPT ON GO BY ALLIES

Yesterday Was Bad Day for Enemy on Western Front

With the American Forces North of St. Quentin, Sept. 29.—Via London, Sept. 30.—American divisions brilliant in action on a front of several miles in conjunction with the British this morning. At nightfall they were reported to have gained their objectives only by sheer might and after killing large numbers of the enemy.

Elsewhere on the front between St. Quentin and the sea, important gains were made to-day, and to-night it seemed that the German resistance had slackened. Belgian, British and American forces had the Germans on the go all day.

The situation contains so many possibilities that anything may happen at any moment. The resistance encountered by the American troops was as strong as anything offered by the Germans for many weeks. The Americans, as well as the British, were held up at many places from time to time by machine gun fire. In some places this was overcome by flanking operations and in others quickly organized retreating parties rushed the enemy and silenced him.

At 8 a.m.

It was six o'clock this morning when the Americans, with the British on their left and right flanks, "shoved off" from the Hindenburg outpost line, about 2,000 yards west of the St. Quentin Canal, which was captured on Friday. After a short "crash" barrage the infantry, preceded by a large number of tanks, started advancing through the haze. After hard fighting the troops reached the canal and scrambled across as the barrage swept on ahead of them.

As the Australians passed through, both they and the Americans, some of whose units plainly showed what hard battles they had been fighting, stopped for a moment and cheered. At other places the fighting continued as they worked. Americans co-operated closely with the Australians and kept a stream of bullets directed at the Germans all the time.

The ground over which the Americans passed was littered with German dead, and the same was true of other sections of the front. Deep progress was reported virtually everywhere.

At Cambrai.

It is reported that the British have reached—Battleground, having taken Lateau Wood and Les Rues Vertes, and are in the outskirts of Cambrai, where there has been fighting of the heaviest character. Canadian troops are fighting here, and it is possible that by this time they are in the town itself. Cambrai must soon fall and it is doubtful if many Germans are there now, for they must realize that they cannot hold on.

Hard fighting seems to have taken place north of the Cambrai-Bapaume road. In this district the village of Biebert has been captured by the Canadians.

In the north the British are working through Flanders.

It is reported that they have reached St. Yves. It also is said that they are in Ostraverne and that they have entered Waterdamehoon.

Progress Continued.

With the American Army Northwest of Verdun, Sept. 28, 11:30 p.m.—Via London, Sept. 29.—(By the Associated Press.)—The American troops continued to make progress, although slowly, all

day yesterday. The advance was greatest on the right of the sector and least in the centre, where the Germans counter-attacked violently. The enemy gained nothing by these efforts, however, except to slow up the American advance temporarily. On the American left the Germans have resorted to heavy machine gun and trench mortar fire. The artillery activity has increased along the entire line, with the Americans easily out-shooting the enemy. East of the Meuse the German artillery fire has been quite heavy.

At Exermont, just east of the Argonne Forest, the enemy offered bitter resistance.

Took Prisoners.

Northeast of Nantillois, somewhat east of the centre, the Americans already have advanced beyond their positions of yesterday morning. The Americans there took prisoners from a Bavarian reserve division which had been resting in Alsace and moved into the line yesterday. They also took prisoners from another reserve division which had sent one battalion from each regiment into the line. The enemy's resistance increased steadily on the left of the American sector, and a number of new German units have been identified. Enemy troops in many instances yesterday held their machine gun nests until they were literally wiped out. The American extreme left continues to advance steadily along the edge of the Argonne Forest.

From batteries east of the Meuse the Germans night-bombarded heavily the region of Brioules and "other places" on the right of the American line.

American Headquarters in France, Sept. 29.—(Morning.)—(Reuters.)—The outstanding achievement of the American army in the latest offensive undoubtedly was that of its aviators, who have done all that was expected of them and much more. Their commander, Colonel Mitchell, proudly claims there is nothing to beat them, and it will be long before their record is surpassed, with sixty machines downed and twelve balloons burned without a single casualty.

General Pershing's report on Saturday's operations stated the Americans had "brought down twelve balloons, and more than sixty enemy planes, while less than a third of that number of our planes are missing."

A German Statement.  
Amsterdam, Sept. 30.—Bitter fighting along the front north of St. Quentin is described in a semi-official dispatch from Berlin as follows:

"A big British attack to break through toward Cambrai, supported on the right wing by fresh American units, began on Friday morning after three hours of violent artillery fire."

"Deeply echeloned British infantry, aided by a large number of tanks, attacked over a thirty-kilometre front south of the Cambrai-Bapaume Road, but it was only after repeated assaults that the British were able to gain ground in the direction of Bourlon Forest."

In the afternoon the British renewed their assault north of the Bapaume-Cambrai Road with a large number of tanks. German forces there withdrew, fighting obstinately, to the line mentioned in the army report.

"In the centre, all the British attacks failed with losses before the village of Graineourt. Only when the British took Arleux did the brave defenders of Graineourt abandon their positions."

## VOTES FOR WOMEN UPHELD BY WILSON

Washington, Sept. 30.—President Wilson to-day stepped into the breach in the Senate over the woman suffrage resolution and in a personal address in the Senate Chamber asked for its passage as a war measure.

The President said:

"I regard the concurrence of the Senate in the constitutional amendment proposing the extension of the suffrage to women as vitally essential to the successful prosecution of the great war of humanity in which we are engaged. I have come to urge upon you the considerations which have led me to that conclusion. It is not only my privilege, it is also my duty, to apprise you of every circumstance and element involved in this momentous struggle. It is my duty to win the war and to ask you to remove every obstacle that stands in the way of winning it."

## FERNIE MINERS HAVE REJECTED PROPOSAL AND STRIKE GOES ON

Fernie, Sept. 30.—The postponed mass meeting of the miners of the Fernie local union was held this morning to consider the proposal by the federal and provincial authorities for immediate resumption of work here on a single shift basis followed by the appointment of a Royal Commission to investigate and report on its findings submitted the question to be reviewed on this basis. The meeting, after three hours' deliberation, on a standing vote to a man rejected the proposed settlement, and so the strike still continues.

## 120,000 GERMANS AND 10,000 SQUARE MILES BRITISH ARMIES' RECORD

London, Sept. 30.—Rt. Hon. Andrew Bonar Law, Chancellor of the Exchequer, speaking here to-day at a meeting opening the Autumn War Savings Campaign, said that since July 12 troops of the British Empire had captured 120,000 square miles of territory, 250 villages and more than 120,000 German prisoners.

"There is no clanging of metal at the wonderful success of the past week," the Chancellor added, "but bells are ringing in our hearts."

## MENACE ENEMY ON THE BELGIAN COAST

Belgian and British Forces Driving Ahead in Flanders Area

London, Sept. 30.—British troops advancing in Belgium to-day captured Gheluve, and are now about two miles outside of the Belgian railroad junction at Menin.

With the British Forces in France, Sept. 30.—The advance along the British front from St. Quentin north continued throughout last night and this morning in spite of the fact that a heavy rain was falling. It was Flandre, however, to which the pivot of the battle seemed to have shifted for the moment. This area gained the distinction because of the fact that the gallant little Belgian army, assisted by the British, is driving ahead in such a manner as to menace the German hold on the entire Belgian coast as far as Ostend.

From Dixmude southward a wide wedge has been driven into the enemy positions, and at last reports the Allied forces were within less than two miles of the railway junction point of Roulers.

Realizing that the ground from which they are being thrown is invaluable to them, the Germans now are resisting heavily and have thrown in four divisions at least of reserves against the Belgians alone. One of these divisions contained elements of the regiments which were guilty of sacking Dixmude.

Advanced Rapidly.

So fast did the British advance in the Flanders area that the batteries had a hard time in keeping up with the infantry. As an instance of this, the British heavy artillery fired a certain ridge found a German battery still firing from a point only 600 yards away and in plain sight. The guns fired on each other over open sights and the German battery finally was put out of action.

One British division has advanced more than seven miles in twenty-four hours over a country studded with defences the Germans believed to be impregnable.

The text of the statement reads:

"In the course of the night German troops delivered a violent counter-attack in the region of Urville, south of St. Quentin. All their attempts to capture Hill 83 were broken up by the French fire."

"Rather violent artillery fighting occurred between the Ailette and the Arne."

"In the Champagne there was no infantry action during the night. The battle began again at daybreak."

Bombarded.

London, Sept. 30, 5 p.m.—The German communications in the St. Quentin region are under such an intense fire that it is impossible for the enemy to get any quantity of men or material in or out.

The British are in no hurry to clear up the situation about Cambrai, and it may be three or four days before they actually take the town. The German communications there also have been ruined and they cannot bring in help or take away much material.

TO-DAY'S TRADING ON WINNIPEG MARKET

Winnipeg, Sept. 30.—The cash markets were dull to-day with little demand. Oats closed 1/2 cent lower for October and 1/4 cents lower for December. Barley closed 1/2 cents lower for October and 1/4 cents lower for December. Flax closed 1/2 cent higher for October, unchanged for November and 1/2 cent higher for December.

Flax—1 N. W. C. 390.

The funeral of Baby Vera Louise Slade, the seven-months-old daughter of Mr. and Mrs. George Slade, took place from the residence, 123 Medina Street, on Saturday afternoon. The Rev. F. A. P. Chadwick officiated. The little casket was hidden beneath a wealth of beautiful floral tributes. Interment was at Ross Bay cemetery.

## PREMIER DECLARES EXHIBITION OPEN

(Continued from page 1.)

In replying to the address by Premier Oliver, Mayor Todd began by expressing regret that H. E. Burbridge, Stores Manager of the Hudson's Bay Company, who had so kindly loaned the building for the use of the Fair, was unable to be present.

His Worship proceeded to praise the interesting exhibits which he said were a credit to Victoria, and should be the cause of considerable satisfaction to the citizens of the city. The manufacturing era of this district had only begun, and there was a great field before any city which was so favorably situated as Victoria in a geographical and commercial sense.

The natural resources were here in profusion, and it only needed enterprise and faith in the future of the city to enable Victoria to rank among the first cities in Canada. Mayor Todd urged the residents of Victoria to patronize the home products, and in time they would be repaid fully for their co-operation.

Referring to the opening address of Premier Oliver, Mayor Todd stated that he considered everything the Premier had said regarding the Fair was fully justified by the tangible evidence of industry that had been set before them.

The Premier had considerable to do with the present progressive conditions. "All his efforts in connection with the welfare of the Province are worthy of great praise. He has shown untiring effort in the interests of the province as a whole, and without any sectional leanings whatever," said Mayor Todd, who concluded that he hoped this year's Fair would end up with a record for the week's attendance.

FORCES UNDER FOCH'S DIRECTION CONTINUE TO SWEEP ENEMY BACK

(Continued from page 1.)

On the front southeast of Douai the British withdrew from Arleux and Aubergin-Au-Bac.

The text of the report follows:

"In the operations yesterday north of St. Quentin the Midland division alone took 4,000 prisoners and forty guns."

"Between Bellecourt and Gonnelleu the enemy resistance yesterday was stubborn. American, Australian and English troops had heavy fighting until the late evening. In spite of the strong opposition they gained ground and took many prisoners."

"At Bony and Villers-Guislain hostile counter-attacks in the latter part of the day pressed us back slightly to the western outskirts of those villages. Elsewhere our gains were maintained, and to the north of Gonnelleu further progress was made in the evening in the direction of Les Rues-de-Vignes."

"Heavy fighting also occurred yesterday afternoon on the left of the battlefield. Our advanced troops, who had taken Aubergin-Au-Bac and had entered Arleux, were compelled to withdraw from these villages."

"West and northwest of Cambrai the enemy was unable to prevent the progress of our troops, whose advances determined the fate of the function of the Arras-Cambrai and Bapaume-Cambrai roads and entered the northern suburbs of the town."

"Heavy losses were inflicted upon the enemy in the repulse of determined counter-attacks launched in this sector."

"Heavy rain has fallen during the night, and the weather is still stormy."

French Report.

Paris, Sept. 30.—French troops in the Champagne resumed their attack at daybreak to-day, the War Office announced this afternoon.

German troops violently counter-attacked last night south of St. Quentin, in the Urville region, in an attempt to recapture Hill 83. All these efforts were broken up by the French defence.

The text of the statement reads:

"In the course of the night German troops delivered a violent counter-attack in the region of Urville, south of St. Quentin. All their attempts to capture Hill 83 were broken up by the French fire."

"Rather violent artillery fighting occurred between the Ailette and the Arne."

"In the Champagne there was no infantry action during the night. The battle began again at daybreak."

Bombarded.

London, Sept. 30, 5 p.m.—The German communications in the St. Quentin region are under such an intense fire that it is impossible for the enemy to get any quantity of men or material in or out.

The British are in no hurry to clear up the situation about Cambrai, and it may be three or four days before they actually take the town. The German communications there also have been ruined and they cannot bring in help or take away much material.

## FINANCIAL NEWS

## SENSATIONAL STOCK MARKET AT NEW YORK

War News Brought Big Buying Into the Peace Stocks

(By Burdick Bros. & Brett, Ltd.)  
New York, Sept. 30.—The stock market opened at about the last closing and sold slightly lower in the first hour. When the full report of the Bulgarian breakup was received there was a wild scramble for the stocks which will be most benefited by peace. The oil stocks led the way, sensational gains were made in Texas Company and Mexican Petroleum. The motor stocks which would be relieved from the cessation of output also made gains.

Later the move spread to the railroad stocks with Canadian Pacific the best in this division. The stocks which have received the most benefit from war orders were inclined to sag. Bethlehem Steel and Baldwin Locomotive were the worst sufferers.

## BULGARIAN NEWS BREAKS GRAINS AT CHICAGO

(By Burdick Bros. & Brett, Ltd.)

Chicago, Sept. 30.—The only factor which was taken into consideration to-day was the news that Bulgaria was out of the war. This was taken as decidedly bearish and the market met with little support. Corn was weak and nervous throughout the session and oats were forced out of the strong position that they have occupied for an extended period.

## An Exceptional Bargain

### SOLID CUT STONE BUNGALOW

Containing  
**Six Large Rooms**  
and reception hall with cut stone mantel and open fireplace. Large attic which could be made into bedrooms. House is fully modern and well finished.

#### HALF-ACRE

(77.6x283)  
In garden, lawn and fruit trees, cement walks, driveway. Property is located in a good residential and healthy district on 1 1/2-mile circle.

PRICE ONLY \$5,000.

Owner forced to sell owing to special circumstances. Let Us Show You This.

**SWINERTON & MUSGRAVE**  
Winch Bldg., 645 Fort St.

## VALUE

Is not what you pay for an article but what you get out of that article.

#### YOU GET

The utmost value out of my  
**BRANTFORD BICYCLES**  
and  
**DUNLOP TIRES**

And they cost no more than others. Same thing with the high-class repairing we pride ourselves on.

## RUFFLE

THE CYCLE MAN

He has a wheel to fit you.

740 Yates St. Phone 962

## Good Taste Sugars

that everyone should give the teeth every care—no surer sign of refinement can be suggested than a mouth which shows the marks of careful attention to keeping the teeth healthy and in good repair.

I have given close and careful study for years to the art of preserving the teeth and of restoring the natural beauty of expression to the mouth and face when it becomes necessary to replace the natural teeth. This is a matter which appeals to one and all—to have the youthful expression of beauty preserved, and to ensure that "live-tooth" appearance which defies detection.

Every plate I make is moulded after close study of the face, modelled to conform to the natural lines of the face, so that they are raised to their original position, giving back perfectly the natural, youthful expression. My prices are unusually low for workmanship and quality so unusually high.

Ladies Always in Attendance.

**FOG SIGNAL NEAR CAPE FLATTERY IS OUT OF COMMISSION**

Slip Point fog signal, at Clallam Bay, near Cape Flattery, has broken down, according to advices received by the Seattle Merchants' Exchange. The indications are that the fog signal will again be in commission by Tuesday. The slip point signal is one of the important aids to navigation in the Straits of Juan de Fuca, and warning that it is out of commission is being sent to all ships that follow the route past Cape Flattery.

**MAYNARD & SONS, Auctioneers.**

"Do mind you don't get hit by it, Pat," said Bridget. "It's dangerous work in that quarry." "That's all right, Biddy," said Pat. "I've borrowed two dollars from the foreman and he don't let me do any dangerous work any more." "Ow!"

## ANOTHER JAPANESE COMPANY TO INVADE NORTH PACIFIC FIELD

Uchida Trading Co. Operating Fourteen Steamships, Sending Ships to Coast

Yet another Japanese shipping concern, the Uchida Trading Company, Ltd., of Tokyo and Kobe, Japan, is to become a competitor for the rapidly growing trade on the North Pacific route between this coast and the Orient. The Uchida Company embraces a number of varied industries of Japan, which include shipbuilding, steamship operation, the manufacture of some of the finest Oriental porcelains and pottery, and other industries, and is a concern capitalised at 75,000,000 yen, or \$37,500,000.

Seattle will be one of the regular ports of call by the steamships of the Uchida Company which controls fourteen freight vessels now being operated under charter to other concerns, but which are in the future, to be operated direct, and also has five new ships building at Kobe in addition to two new vessels being constructed for the American Government. The latest addition to the company's fleet is the Taisaku Maru, which was launched in Kobe. It is proposed to launch a ship a month for the next four months. The following steamers are owned by the Uchida Trading Co.: Taisaku Maru, 3,873 tons; Taiyu Maru, 3,825 tons; Fukui Maru, 3,550 tons; Aikoku Maru, 4,720 tons; Taiho Maru, 4,500 tons; Taiyo Maru, 4,500 tons; Uranus Maru, 3,600 tons; Junsankyo Maru, 2,800 tons; Sorachi Maru, 2,150 tons; Taijin Maru, 1,520 tons; Taisaku Maru, 1,500 tons; Taiyo Maru, 980 tons; Shimmell Maru, 3,750 tons; Taisaku Maru, 3,600 tons, recently launched; Taiyu Maru, 3,500 tons, to be launched in October; Taijin Maru, 3,500 tons, to be launched in November; Taiho Maru, 3,500 tons, to be launched in December, and Taiyo Maru, 3,500 tons, launching probably in January.

## WOLVIN DEPARTS FOR GENOA BAY

The five-masted auxiliary schooner Geraldine Wolvin got away from the inner harbor to-day for Genoa Bay to complete loading her cargo, which will amount to over 1,500,000 feet of lumber. While here she took aboard 700,000 feet at the Canadian Puget Sound Mills.

## Strength Will Return To Weak People Using This Treatment

You are discouraged.  
You feel old and worn.  
You are sick, but not aware of the fact.  
You can drag yourself around—but work is impossible.  
With your stomach crying out for assistance and the nerves all on edge why not try Ferrone's?—It will surely do you good.

Ferrone's is a wonderful combination of vegetable extracts, fortified by excellent tonics for the nerves and stomach.  
When you feel despondent, Ferrone's cheers you up.  
When languor and depression weigh you down, Ferrone's braces you up.  
When sleep is impossible Ferrone's calms the nerves and gives you rest.  
For bounding health, good looks, good spirits, nothing equals Ferrone's; makes the old strong and the sick well. Good for men, women and children; try Ferrone's, it can work wonders, as it did for Mrs. Mary Melong, of Harbor House, N. S., who writes:

"Ferrone's built me up.  
"Before using it I scarcely knew what good health meant.  
"I was just an ailing and weak as any woman could be.  
"Tired from morning to night, bothered by trifles, unceasingly nervous.  
"The first box of Ferrone's improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."  
Try Ferrone's. It will make an unexpected improvement in your looks, your feeling, your health.

Whether anemic, nervous or suffering from secret disorders, if you want cure, use Ferrone's. Price 50c per box, or six boxes for \$2.50, at all dealers or direct from The Catariszone Co., Kingston, Ont.

## MANAGER SATISFIED WITH PROGRESS HERE

Bayly Hipkins Expects Victoria Plant to Rival Yards at Tacoma and Portland

## SHIP TO BE LAUNCHED EVERY TWELVE DAYS

"I am well satisfied with the progress that has been made, and am looking for big things when the two yards get down to a proper working basis," said Bayly Hipkins, Pacific Northwest manager of the Foundation Company, who arrived in the city from Seattle this morning aboard the G. T. P. steamship Prince George.

Mr. Hipkins spent the whole of the forenoon, accompanied by H. B. Pickering, local manager, in inspecting the work that has been accomplished at Nos. 1 and 2 yards since September 9, when the company's shipbuilding programme was formally inaugurated by the laying down of two keels. In a talk with the Times representative, Mr. Hipkins pointed out that a little time must naturally elapse before the organization gets into its stride, but he predicted "something doing" at no distant date.

Since the general manager was here three weeks ago great changes have been wrought at the Foundation yards under the supervision of Mr. Pickering. A great deal of time has been devoted to perfecting the organization, and the plant, actual construction has been put under way, and there will be no let-up from this time forward in shipbuilding activity here.

In the construction and delivery of ships, Mr. Hipkins expects the local plants to rival the yards operated by the Foundation Company at Tacoma and Portland. With the launching of another vessel across the border this afternoon, the yards at Tacoma and Portland have launched thirty vessels to-day, fifteen to each yard.

This remarkable record has been accomplished since March 19, last, when the first of the ships building across the line was put into the water. Furthermore, of the thirty vessels launched, twenty-two of them have been delivered since June 1. This means that one vessel has been launched every six days and one delivered in the same ratio of time.

"I consider that is some record," remarked Mr. Hipkins while on the subject of the activities of the Tacoma and Portland yards. "Do you expect the Victoria yards to keep pace with that record?" asked the newspaperman. "I certainly do," was the prompt rejoinder. "We are figuring on a launch every twelve days after the first has been sent overboard." This he based upon the fact that the combined capacity of the Tacoma and Portland yards is about double that of the Victoria plants.

## EMPRESS WILL MAKE THIS PORT TO-MORROW

C. P. R. Liner Reports by Wireless; Atsuta Maru is Fully Due

Wireless messages received from the Empress of Japan state that the C. P. R. liner will reach here at 4 o'clock to-morrow afternoon from ports in the Orient. Although no details were given in the radiogram it is taken to mean that the Empress of Japan will make Victoria Head at the time stated, in which event she will come alongside the Outer Docks about 6 p.m.

The saloon accommodation of the Empress is crowded and a large number of the passengers will disembark here prior to the departure of the vessel for Vancouver.

No definite word has been received of the other vessels now nearing the coast from the Far East. The Nippon Kaisha liner Atsuta Maru is due to reach here to-morrow, but at the time of writing no message had been received by the agents regarding the probable time of her arrival. The liner Africa Maru, of the Osaka Shosen Kaisha, is also scheduled to put in an appearance to-morrow with passengers and freight from the Far East.

Over sixty first-class passengers have been booked to sail from this port on board the N. Y. K. liner Suwa Maru which is posted to get away from the Outer Docks late to-morrow afternoon for Yokohama and Hongkong. This is by far the largest list that has been booked through the local agency since the larger liners were placed in the trans-Pacific service.

The remainder of the accommodation has been reserved through the Seattle office and when the Suwa Maru finally gets away to sea there will not be a saloon berth vacant.

## MERCHANT GUILD ACCEPTS FINDING

Only Minor Adjustments Asked by Masters and Mates Organization

Vancouver, Sept. 30.—The Royal Commission looking into the wages and working conditions of the shipmasters and mates of the Coast has been notified by the Canadian Merchant Service Guild that the finding of the Commission, submitted as an interim report, would be accepted by the members of the Guild with one or two minor adjustments with regard to wages on certain vessels.

## WORLD'S RECORD SET BY SEATTLE CONCERN

Steamship Ozette, 9,400 Tons, Launched From New Yard in 84 Working Days

Seattle, Sept. 30.—By launching the 9,400-ton steamship Ozette in eighty-four days from the keel-laying, the Seattle North Pacific Shipbuilding plant on Saturday established a world's record for the first product of a steel shipyard. With the exception of the steamship Walter A. Luckenbach, built by the Seattle Construction & Drydock Company last December, the Ozette is the largest type of freight steamship ever constructed in Seattle. She is larger by 400 tons capacity than the standard type being turned out by other steel yards operating at this port.

About one year ago C. J. Erickson took an option on the site, which has since been converted into a shipbuilding plant which now compares favorably with any other in Seattle, but it was not until last spring that ground was broken for the commencement of the plant construction. Eighty-four days ago Saturday, exclusive of Sundays and holidays, the keel of this first ship under the supervision of General Manager Shedy, since resigned, and Superintendent of Hull Construction Thomas S. Nelson. To these two men, together with their able assistants, go the credit for the splendid record achieved by them in putting this record for a new shipyard.

The best previous record for a new shipyard was the performance of Skinning & Eddy in launching the Niels Nielsen in 124 working days, and because of their feat in setting the first performance of Seattle's premier shipyard in production of vessels the Seattle North Pacific bunch are now out to lower their rivals' other record, of which there are many.

**Direct Contract.**  
The Ozette is a direct contract vessel for the United States Shipping Board and was built under the supervision of Inspector J. R. Wood, of the staff of Capt. John F. Blinn, district manager for the Eighth Shipping Board district, embracing Oregon and Washington.

The launching went off in perfect order, and promptly at the hour announced the big ship was released and slid down the ways into the waters of the Duwamish, marking the first steel vessel ever launched in that waterway.

Mrs. C. J. Erickson, founder of the Seattle North Pacific shipyard, enacted the role of sponsor.

## PRINCE GEORGE NORTHBOUND

The G. T. P. steamship Prince George, Capt. D. Donald, left here at 9 o'clock this morning on her northbound trip to Prince Rupert and Anxox. She will have most of her accommodation taken up when she leaves Vancouver to-night.

## PRESIDENT MADE FAST RUN NORTH

Steamed From San Francisco to This Port in 47 Hours 40 Minutes

Completing an exceptionally fast run from the Golden Gate, the American steamship President, of the Pacific Steamship Company's fleet, reached the Outer Docks at 12:40 p. m. to-day from San Francisco.

Capt. Cousins, reported splendid weather, the President making the trip from wharf to wharf in forty-seven hours forty minutes. The best time ever made by the President over the same course is forty-seven hours, so she came pretty near equalling her former record. The steamship brought a large list of passengers north, some forty people coming ashore at this port. After discharging California freight here, the President cleared direct for Seattle.

Bookings for the southbound voyage of the President are fairly heavy, and the local agents anticipate there will be a big rush of travel to California within the next few weeks. The prairie farmers and their families are now beginning to trek West, and California reservations are now being made with the company's agents.

## OBITUARY RECORD

At St. Joseph's Hospital yesterday Mrs. Barbara Jardine Rought, wife of David Rought, of 270 Portage Avenue, passed away at the age of thirty-nine years. She was born in Naim, Scotland, and had been a resident of this city for the past six years. She leaves to mourn her loss, besides her husband, one son, of this city, and a father and three sisters in Scotland; also three brothers overseas. The funeral will take place on Thursday, at 2 o'clock, from the Sands Funeral Chapel. Interment will be made at Ross Bay cemetery.

The death occurred yesterday at St. Joseph's Hospital of Hazel Sylvia Jones, wife of L. Jones, of 1025 Queen's Avenue, at the age of twenty-five years. She was born in Portland, Oregon, and had been a resident of this city for the past eight years. She leaves to mourn her loss, besides her husband, one daughter, her mother in law, one sister, Mrs. Marie Francis, of Seattle, and one brother, Clyde Penn, of Seattle. The funeral will take place on Wednesday afternoon at 2:30 o'clock, from the Sands Funeral Chapel. Rev. H. S. Osborne will officiate. Interment will be made at Ross Bay cemetery.

## LOCAL MOTORISTS ARE MAKING THE SABBATH GASLESS

Sunday Joy-Riding is Rapidly  
Decreasing on Local  
Highways

**PATRIOTIC MEN SEE  
NECESSITY OF SAVING**

A conspicuous absence of the Sunday motorist was noted along the roads outside Victoria on Sunday. This is the day dedicated by the Fuel Controller, and by patriots all over the continent, as the gasless day. It is evident by the scarcity of joy-riding on the Sabbath that the patriotism of Victoria, under the new gas-saving test, has been weighed in the balance and found wanting.

In accordance with the arrangement between the garage owners and dealers of the city, no gas tank opened yesterday to aid and abet the Sunday motorist in his acts. The cars seen along the usual roads were either those engaged in legitimate business, upon owners of which no reflection is cast, or those for which gasoline had been obtained the day previous. The last named, however, were comparatively few in number, the beautiful roads of Saanich, which usually lure swarms of Sunday motorists from their homes, being particularly silent by the absence of cars.

**Great Saving Effectuated.**

In fact it is estimated that in this district "joy-riding with the Kaiser" was only twenty-five per cent. of what it has been on past Sundays. In other words, seventy-five per cent. of the gasoline usually expended upon Sunday joy-riding was saved in Saanich, and on the other roads the same conditions prevailed in a less degree.

Further evidence that Victorians are awakening to the necessity of conserving petrol in order that the supply at the front may not be affected, is afforded by the experiences of many local dealers who say that the owners of cars are not, generally speaking, seeking to evade the issue by obtaining gas on Saturday.

**The Eyes of the World.**

It is pointed out, and this statement even the Fuel Controller would not deny, that the automobile in most of its uses is as essential as the railway train. It is upon the small percentage of joy-riders that the security of public opinion is being directed, and in the United States he is a sort of outcast from society.

**Bad Form.**

Sunday joy-riding has become bad form across the line. He who indulges in it is not only classed in the category of profiteer and war-waster, but is considered as a hopeless "low brow."

So far have these gas-saving measures gone that the few cars except those upon legitimate business, are now seen along the streets of the American cities and in Ontario, too, large sums are being saved with the elimination of Sunday motoring.

In the West, however, where the movement is only now taking effect, the same success has not been experienced by those behind the save-gas campaign.

**Vancouver's Success.**

Vancouver was the first Canadian city to inaugurate the anti-Sunday motorist campaign, and it is said that last Sunday some attention was paid to the request of the Government, but a big increase of the non-joy riders is looked for next Sunday. Gasoline salesmen say that many of their customers have evinced a willingness to comply with the Government's request and are not buying gasoline in advance for Sunday, as is the usual custom.

Gasoline is one of the chief essentials at the front, transportation to a large extent being entirely dependent upon petrol-propelled vehicles. A few gallons saved at home may mean that soldiers at the front will receive their ammunition and rations promptly, but a shortage of the precious fluid in France would work havoc with the whole system.

**Need at Home.**

Moreover, the need of conservation, though chiefly centered in the war activities at the front, is nevertheless near at home. It is essential right here in Canada. "Reduce our supply of gasoline and every farm in Canada would be suffering to-morrow," declares the Dominion Fuel Controller. "Every urban and town centre would have to hastily readjust itself to less efficient systems."

"Gasoline has been one of the greatest assets to peace and order to accomplish the desired ends of industry and destruction. "And at the front gasoline is one prime necessity to ensure a victorious march. Tremendous quantities have gone across the ocean as securely as if a great pipeline were laid down to the battlefront."

"There is danger of that line slowing down," concludes the Fuel Controller, "and under that condition we can not ignore our responsibility as private owners of cars. It may be a little in the individual case to abandon unnecessary trips, but in the aggregate it means a saving of \$150,000 per day."

The problem of gas conservation will be solved by the individual automobilist.

## DINNER and DANCE

WHAT COULD BE a more delightful invitation than to be asked to dinner at the Brentwood Hotel? WHAT CAN BE an easier way to entertain than with a joy-riding motor ride out in the cool of the evening and the certainty of a well cooked dinner?
